and mid-way turns into this:

And I am not even joking. The novel begins with Holmes and Watson meeting, moving into their Baker Street apartment and then investigating a murder of a man found in an abandoned house. At

the half point, however, the story completely changes its course and becomes the most awkward introduction of the murderer's back story and motives involving Mormons, polygamy, violence, money, and Brigham Young. The structure of

is utterly bizarre.

But let's not linger on the bad. I want to use this review to shamelessly hype the new BBC version of Sherlock Holmes.

This is an absolutely delightful modernized take on the old characters and it offers a much better version of

's dreadful story. So, check it out.

Ok, the big deal about this one is that you get to see the Sherlock/Watson meet-cute. I mean, this is one of the most important meetings in the history of all literature! Come on, people! Get excited!

It's only fair to mention that I've read and reread all of these stories a bjillion times, and these are by far my favorite

characters.

But I know I haven't read P&P as

Ok, the big deal about this one is that you get to see the Sherlock/Watson meet-cute. I mean, this is one of the most important meetings in the history of all literature! Come on, people! Get excited!

It's only fair to mention that I've read and reread all of these stories a bjillion times, and these are by far my favorite

characters.

But I know I haven't read P&P as many times as I have Sherlock's mysteries, which should tell you something right there.

And, just to be clear, I loved him before he was all sexified.

Ok, so Watson is back from the war (he basically just got trounced on and then came home), and

Henry Avila

This nifty novel (really a novella) the first Sherlock Holmes book written in 1887, is rather strange since it is set both in the culture, of brimming Victorian London, 1881, and the

dry , very hot desolate deserts of the savage wastelands of Utah, 1847 , nothing here...before there was a state established there or giving that name. Or even part of the United States, since technically still Mexican territory , neglected by them and ruled by the Ute Indians... hence the appropriate appellation

This nifty novel (really a novella) the first Sherlock Holmes book written in 1887, is rather strange since it is set both in the culture, of brimming Victorian London, 1881, and the

dry , very hot desolate deserts of the savage wastelands of Utah, 1847 , nothing here...before there was a state established there or giving that name. Or even part of the United States, since technically still Mexican territory , neglected by them and ruled by the Ute Indians... hence the appropriate appellation . The almost forgotten war between the U.S. and Mexico...1846-1848 caused the maps of the world, to alter significantly the long borders between these two giant but rather sparsely populated, combating nations...

Changed the status , the news surprised the Mormons who had fled persecution , seeking freedom, for their weird belief in polygamy (which men loved) but caused momentous trouble , in the American midwest. Angry crowds killed many Mormons, including their founder , Joseph Smith, and escape was now impossible they thought...except this harsh, distant place from 19th century civilization, made them almost completely sovereign... The plot begins when the new Mormon prophet Brigham Young, soon to have 55 wives, leading the first 2,000 Mormons to the promise land, an exodus of 1,300 miles ... his men, find two pathetic, starving people , a man and a girl child the only survivors of a lost wagon train, sleeping on a hill overlooking the wilderness ... an account about love , a forced marriage and revenge ... endlessly sought ... is revealed...Back to Mr. Holmes and Dr. Watson (pardon the history lesson but it is quite important for understanding this great book). The actual narrative starts with young Dr. John Watson returning from the horrendous second British- Afghan war ...sadly there will be many more...Wounded, nearly fatally, then let go from the army , trying to recover his health and spirits , save money too, he rents a room at 221 b Baker street ...this is where the famous duo become friends, the reserved Holmes fascinates the good doctor with his many eccentricities...what does he do to make a living. Obviously exceptionally brilliant but keeps to himself. NOT a medical man, yet knows much about medicine...interested in discussing grisly crime cases, the bloodier the better, an unusual obsession...why? Then Scotland Yard contacts Holmes , asking for help with a murder investigation...a mystery that only the violinist Sherlock can resolve, with an assist from the Baker street irregulars, nevertheless will not get credit for... The very different stories , unite masterfully at last , in faraway England...Americans in London start being killed for no apparent reason... not political or for profit either, and all came from Salt Lake City...This will give readers a nice taste ...and why Sir Arthur Conan Doyle 's Sherlock Holmes is still popular today.
