I couldn't stand the art (having seen the anime first), and ended up selling my only volume off at a con bring and buy without even finishing it! Glad I went back to it though...

After reading up to volume 3:

I can imagine that most manga/anime fans will have probably seen or heard of the anime adaptation of Ouran before picking up the manga. Those wanting more of the same should be pretty happy with the manga, as it follows the anime almost to-the-letter s

I love Ouran, I really do. All the characters are just wonderful.

I laughed a lot too. The Commoner's Coffee scene? I'm just going to quote it here for my own sake:

Tamaki: Eh, what's this?

Haruhi: Coffee. It was on your list.

Tamaki: But ... Ground coffee? And a strange brand...

Haruhi: Not ground - instant.

Tamaki: Instant ... WHOA! The one you just POUR HOT WATER IN? How PROLETARIAN!

Kyouya: Hmm... I've heard of it, but never SEEN it.

Hitachiin: So it's TRUE! Poor people have NO TIME to GRIND THEIR

After reading the description for the series, I knew I would love

. Or, more accurately, I hoped it wouldn't be one of those manga that sounds really good, and then sucks. I read the first volume last night, and kept bothering my girlfriend by giggling while she was trying to work. I particularly loved the Host Club members, and especially loved Tamaki, the Host Club King.

He insists that everyone call him the king of the host club (even though no one does), and sulks in the corner if anyone is mean to him (which happens a lot). In short, he reminded me of me. Therefore, I spent most of the night posing, pouting, and acting like the characters in the book. I couldn't tell if this delighted or annoyed my girlfriend, or both. I am betting on the latter.

I also enjoyed how fascinated the club members were by "proletarian" food, like instant coffee and ramen. They had never eaten it before, and make a huge fuss about trying some "prole coffee". It's hilarious. I highly recommend this one to fans of Shojō manga.

'Ouran High School Host Club' is one of those manga that I had previously avoided on the basis of its being too flamboyantly shojo--that is, intensely fascinated with lovely bishuonen and the charming sparkles that seem to swirl about them when they're at their most heart-meltingly beautiful. I lost interest in all that when I was, like, 14 after realizing that many shojo comics focused on bishounen seemed to take themselves too seriously.

'Ouran High School Host Club' is one of those manga that I had previously avoided on the basis of its being too flamboyantly shojo--that is, intensely fascinated with lovely bishuonen and the charming sparkles that seem to swirl about them when they're at their most heart-meltingly beautiful. I lost interest in all that when I was, like, 14 after realizing that many shojo comics focused on bishounen seemed to take themselves too seriously.

Then one day I happened to flip through the first volume of this series and discovered this: Here was finally a shojo manga that realized the absurdities of all other bishie-centric manga! And how does it address the problem? By throwing more sparkly bishies at us.

'Ouran Host Club' is a first-rate example of genre parody, impressive because it lampoons everything that is associated with flamboyant bishieness while still showing the origin subgenre some respect AND containing a storyline that is stable enough to stand on its own when the mangaka doesn't feel like writing straight parody.

The Host Club of the title refers to an organization that exists solely to bring the pleasure of bishounen interaction to the girls of a high school for the obscenely rich. Every kind of bishie is present in this host club, from the traditional charming princely type, to the stoic, protective type, to the adorable little brother type who is always protected by aforementioned stoic type. Also present in this group, though, is an accidental member--Haruhi, the main character, who takes a bit of transforming to become a bishie...before the other characters realize that she's actually a girl. (For the uninitiated, it is not hard in manga for a character to effortlessly appear to be a member of the opposite sex, even when it's not intended.)

Haruhi is the voice of reason amidst all the outrageous absurdity that goes on within the host club, the person that all the anti-bishies like me can relate to when the host club's hijinks reach epic levels of stupid. It can be reasonably argued that this series' success hinges on Haruhi's presence, as even lovers of the absurd in manga still need something familiar to hang onto. Haruhi and this series will not make pro-bishie converts of all anti-bishies, but it is a commendable work, which I intend to continue reading until I can take the absurdity no longer.
