Q: I love my husband but I'm feeling kind of restless. But adultery is wrong.

A special note to those who say my review stopped them from reading this book: No no no! Read it! I actually reread the whole series last summer and enjoyed it immensely. Just read it for what it is: ludicrous, well-written, humorous, delicious TRASH. Just don't expect it to be the most brilliant novel ever written and you'll be fine.

How To Commit Adultery Without Being a Cheap Slutty Whore: A Q&A by Diana Gabaldon

Q: I love my husband but I'm feeling kind of restless. But adultery is wrong. So what do I do?

A: Easy! Go back in time!

Q: What do you mean, Ms. Gabaldon?

A: If you go back in time, your husband hasn't been born yet. So you can have wild and crazy S&M sex with impunity.

Q: But won't I still be married to him?

Kelly

Yes! I read this. I admit it! You caught me! Not only that... I loved it. It is a double sin I will likely have to one day repent for by reading piles of Dostoyevsky while I tear out my hair. In any case. Right, once again into the breach to defend myself!

This book is incredibly long. It's just a fact. All of them are. But they go by so incredibly fast. By the time I got to the third one? I read it in three days. The pages just keep turning. I read at double speed I was so engrossed in the story

Yes! I read this. I admit it! You caught me! Not only that... I loved it. It is a double sin I will likely have to one day repent for by reading piles of Dostoyevsky while I tear out my hair. In any case. Right, once again into the breach to defend myself!

This book is incredibly long. It's just a fact. All of them are. But they go by so incredibly fast. By the time I got to the third one? I read it in three days. The pages just keep turning. I read at double speed I was so engrossed in the story. And I must admit that usually I hate time travel romances (... I mean.. not that I have any experience trying them before... never...) but this one is not even about that. Or if it is, it just makes it better.

Also? There is a pile of historical information in this text. It deals with the Bonnie Prince Charlie uprising, and the rest of the books go on to deal with the American colonies and the Revolution by

the time that they're done. It's not just about the romance. It's about medical treatment, what horrid things Scottish people ate, the reality of what people would have suffered through. Which is in some cases I think a direct indictment of the Scottish Highlander bodice-rippers in which everyone is shining and perfect and with awfully clean white teeth. I'd say this is more historical fiction than romance.

But fine, let's deal with the romance. Yes. There is a lot of sex. However, I found it to also be deeply intimate and true, brutal, and real. Claire and Jamie, while apart, are deeply attractive and sympathetic characters with a good deal of nobility about them. Throw them together in love? And they are beautifully frail, selfish, angry, flawed. I love that statement. I really find them so incredibly touching.

So there. It's not just a romance novel. I stick my tongue out oh so maturely at the readers of this review.

I remember my friend in college (1992ish) coming out of her room holding a book to her chest and saying " YOU HAVE TO READ THIS BOOK". She said it was a time-travel, romance book set in post world war II Scotland and mid 18th century Scotland.

Being as I was a 24 year old stoner and a 5th year college student, Lord of the Rings was more up my alley and I told her I'd "put it on my list"!! Fast forward to 2009, I'm on my usual Saturday morning sojourn to Barnes and Noble and I come across "Outl

I remember my friend in college (1992ish) coming out of her room holding a book to her chest and saying " YOU HAVE TO READ THIS BOOK". She said it was a time-travel, romance book set in post world war II Scotland and mid 18th century Scotland.

Being as I was a 24 year old stoner and a 5th year college student, Lord of the Rings was more up my alley and I told her I'd "put it on my list"!! Fast forward to 2009, I'm on my usual Saturday morning sojourn to Barnes and Noble and I come across "Outlander" in the fiction section. As I am currently without any books to read and nothing catching my interest, I decide to finally give it a try..... All I can say is " I cannot believe I wasted almost 20 years of my life without reading this book!"

I won't go into the plot as it's already been covered, but, Holy Shit, this is one fantastic book! You've got adventure, drama, history, fantasy and romance. Easily the best romantic story line I've ever read and literally the most charismatic, appealing male lead I've seen. I've since read the whole series and love it even more today. If you've ever read a book and literally gotten so sucked in that you can't possibly read fast enough, then you know what I'm talking about.....Oh, and Jamie Fraser is a God!

I've been an avid reader since I was 8 and Jamie is without a doubt my most beloved. Whomever your favorite male protagonist is I can promise you that no one compares to Jamie, no one! Read on, GR friends, this series is epic and you won't regret it!!!

P.S. (circa Fall-2013.....) I usually don't care if someone does not like a book that I love. Everyone's tastes are different. That being said..... I find if someone says something negative about Outlander I have an almost visceral reaction and want to stab them with a fork. So if you're a hater you better watch yourself.....and seriously? What's wrong with you?

WHATTTT HOW DID I NOT MARK THIS MAGNIFICENT CREATION OF A NOVEL AS READ BEFORE???

I read this book 2 years ago and it has captured my heart and is my favorite book of all time
