opens up at night in the basement of an empty academic building on a college campus where a fighting/betting ring known as The Circle is being run. This is where we meet Travis 'Mad Dog' Maddox, the male romantic lead. He, of course, wins his fight. The female lead, Abby, is attending the fight club for the first time that night. She ends up with blood on her cashmere sweater and a new name given to her by Travis, who doesn't ev

opens up at night in the basement of an empty academic building on a college campus where a fighting/betting ring known as The Circle is being run. This is where we meet Travis 'Mad Dog' Maddox, the male romantic lead. He, of course, wins his fight. The female lead, Abby, is attending the fight club for the first time that night. She ends up with blood on her cashmere sweater and a new name given to her by Travis, who doesn't even bother to ask for her name before arbitrarily deciding on 'Pigeon.' It is the way one might rename a dog one has adopted.

We meet Travis again in the cafeteria. He is being

Abby's best friend America, who also happens to be dating Travis's cousin and roommate, makes a snide comment. One of the blonde's calls her a skank. Travis

because America is his friend. This little interlude sets up two major reoccurring issues: girl on girl hate and Travis treating girls like garbage to step over. Every girl in the book except for Abby and America is a skank, a bitch or a bitchy skank. As for Travis, this incident of deliberately humiliating a girl in public and dropping her on the floor like the used condom wrapper she represents to him is actually as close to a gentleman as he ever gets because this is one of the mildest examples of his behavior.

After lunch, Travis and Abby conveniently have a class together although they seemed to have seen each other for the first time at the fight last night. Whatever, get used to this author making up shit as she goes along and writing inconsistently from start to finish. I can give you a list of minor (yet annoying) continuity issues in the comment section below if asked.

Travis fixates on Abby and sits beside her, leaving disappointed girls by his usual seat. He indicates she should take notes for him and spends the rest of the class zoned out. Never fear though! Travis is a freaking genius. He doesn't need notes or studying or attending classes to ace the grades. On a similar note, he also does not need to eat healthy or exercise to maintain his muscle mass and six pack! I'm sorry, but every guy I've talked to with a body like Travis's could go on

about his diet and workout regime. We don't have to worry about believability in this world because despite the lack of traditional fantasy markings nothing about this book remotely resembles reality. In this world, control and abuse can turn into a happily ever after.

With minimal effort Travis pesters Abby into agreeing to come to his apartment after school with her friend America, who is there often to see her own boyfriend, Shepley, Travis's cousin. She agrees and then attempts to dress in the most disgusting way possible:

I'll hold on while you get your favorite religious artifact to hold off this monster. This description pretty much matches me at the moment on my day off. Rawr.

.4/22/16: Edited to add spoiler tag; didn't realize I never checked it 4 years ago.

02/25/12:

Now that I've read this book twice, I can say absolutely without a doubt that I hate it. It wasn't me being stupid and not realizing how great a book was until the second reading, like it was the first time I read

and

. It really is just an awful book.

Every single character in this book is an absolute idiot - with the exception of Kara, who is the only character

I'm not sure what to write about this book. The reviews for the book were SOOO incredibly misleading. I thought Travis was going to hit her, or come close, the way everyone was going on about the 'abuse' in the book. I get it, it was intense. But having seen real abuse with my own eyes, in real life..I didnt understand what everyone else saw that made it be worse and stand apart from all other books.

This is a book about an alpha male. Just because it's not a paranormal book and instead, a contemporary

I'm not sure what to write about this book. The reviews for the book were SOOO incredibly misleading. But having seen real abuse with my own eyes, in real life..I didnt understand what everyone else saw that made it be worse and stand apart from all other books.

This is a book about an alpha male. Just because it's not a paranormal book and instead, a contemporary, it's not ok for him to act like that? I'm a pretty (very) conservative person and I've read paranormal books where the guys act worse than that.

Abby was the one who got on my nerves the most throughout the book for jerking Travis around all the time.

It's a book, and only a book, and I enjoyed it. I think I'll stop reading reviews before I read a book. Everyone is entitled to their opinion, but I don't want to be deterred from a book again. I want to make

my own decision. :) And in my opinion, I LOVED Travis!

Great book, Jamie. Life is not roses all the time and everybody can change.

S.C. Stephens

Wow...Travis, Travis, Travis. I liked him, I hated him, I liked him again...I worried about his sanity...then I loved him. And, oddly enough, I had a lot of the same feelings about Abby! So many times I wanted to scream at her, then him, then her again! Great, complex characters. I loved this!! Wonderful story, wonderful world, wonderful author!
