Aliens, hot aliens? DAEMON BLACK???? YES PLEASE!

Loved this book, read it in 2012 but decided to come back and write a review for it. This is actually the book that made me start book blogging!

This book was such a quick, fun read! I haven't read an alien book before, and I found these aliens to be so interesting. Katy was a great main character and I LOVED that she had a book blog. It was a little repetitive at times and the constant bickering between Katy and Daemon, although funny and filled with sexual tension, was almost too much sometimes. However, I'm invested in this story now I will be picking up the next book sometime in the future!

Not long ago, someone I know got into a really bad relationship. It was the kind of relationship where the guy was a pretty-faced douchebag who would tell her he loved her one minute and the next he would be making snide remarks about her weight and about her career, or standing her up when they were supposed to be going somewhere. But the worst part of this relationship wasn't him, it was my friend.

Not long ago, someone I know got into a really bad relationship. It was the kind of relationship where the guy was a pretty-faced douchebag who would tell her he loved her one minute and the next he would be making snide remarks about her weight and about her career, or standing her up when

they were supposed to be going somewhere. But the worst part of this relationship wasn't him, it was my friend.

Everyone she knew, including me, warned her away from him, told her he was bad and that she deserved better... you know, the usual. And she knew exactly who he was, knew that he was playing constant mind games.

. And she honestly believed she could change him. She would say "he's just an immature guy" as we sat with her while she cried because he'd made her feel like shit again. We subtly tried to remind her that there was such a thing as self respect and she was rapidly losing grip on it.

I sat there and wondered how someone so pretty, smart and full of fiery personality could truly believe this was something normal that she had to accept and get through. But it's when I read books like

that I receive a painful reminder that this kind of psychology is not only way too frequent, but also constantly reinforced by books selling such relationships as romantic and passionate. Do I need to point out the obvious example?

Some people said this book was another

- complete with sappy heroine, paranormal love interest and a shit ton of angst. Honestly, they insulted

with that one.

Katy and her mom move to West Virginia after her father's death, and she meets her gorgeous, irritatingly rude neighbor Daemon.

The tension between them is incredible, but with Daemon acting like a jerk, they end up fighting most of the time, and the other times are just swoony as hell!!!!

Since Daemon behaves terribly toward Katy, and his sister Dee forces him to be nicer to her, which leads to some very very nice scenes like car-washing, swimming in the lake, the swing scene (\*sigh\*), the kitchen scene and well basically every scene where Daemon and Katy are together (and there are a LOT of those)

One night Daemon saves Katy from a terrible accident and she realises he's not what he seems, he is in fact - an alien!

The laptop scene... No comment to that, you just have to read it ;)

The ending was awesome, action packed, but also emotional and sweet. And funny. Well it was everything!!!

\*sigh\*

Well, first thing you need to know is that with Daemon, hearing something romantic come out of his mouth is practically impossible, even though he had his wonderful moments which I treasured because they were rare :D

But it was all still there, even though he behaves like a jerk to her, he's still protective, and man, that made some amazingly swoony scenes in here

And even though I've said it before, every scene with those two was amazing, it was full of tension and butterflies
