What people Say:

Florence (Lefty) MacIntosh

The Harold Fry that leaves to mail a letter to his dying friend is drained by life, full of self-loathing and incapable of mending his ruined marriage.

He just keeps walking in the belief that his journey will save her life. I wanted to shout "keep going Harold!", to remind him of the adage "absence makes the heart grow fonder" because Harold's journey was testament to its truth.

Three star review has moved to

But really, there are better ways to spend your eyeblinks than reading this mawkish treacle.

Jennifer

still mulling this one. sometimes i really liked it and other moments i was...a little bored. there was definitely an overuse of "put one foot in front of the other" that verged on becoming a drinking game. the premise of the story is lovely but it did get a bit schlocky and mitch albom-y for my tastes. mentions of both facebook and twitter in the book were curious.

you know, the further i get from reading this book, the more it is sitting with me in a way that is far deeper than i originally stated. it's an introspective story and deals with a lot of issues quietly - but i have been thinking about the story off and on for the last several days. i think it would make for a really good in-person book club discussion.

i had the chance to meet joyce and hear her read and talk about the book. she's a lovely woman and believes so strongly in harold that you can't help but wish the very best for both of them.

as far as the booker: it would be very interesting if she/it won. it's not the typical book for booker - it's a simple & sentimental story. but, it's touching a chord with many, many people. that shouldn't sway the judges though. it's a tremendous achievement to have accomplished a longlist spot with a first novel. amazing!!

Isabelle

I have just browsed through a bunch of reviews that are literally glowing with praise, so I feel rather embarrassed that I cannot be more enthused about this novel.

I was really taken in by the premise and rather enjoyed the beginning of the book, probably until celebrity, hype and disciples befall Harold.

From that point on, I started to find the book predictable, if not a little trite even. I also think that while I have nothing against a good dose of pathos, this may have bordered on the overdo
