I loved it. I loved the kids with Jenna. I loved how things between Jenna and Finn developed slowly. And I really liked the little surprise at the end of the book. Will try the salmon soon.

This book (series?) was recommended to me a miiiiiillion times by my friends and I finally got around to reading it thanks to my insomnia.

Alright! So, as a romance I could definitely say I did not like it almost at all. The couple, to me, did not seem to have any chemistry whatsoever. The kids, however, were adorable and Harry honestly reminded me of my nephew. Sophia was realistic as a child and I loved their bond with Jenna. The only thing was - is that they read much older than their ages. I really must've just skimmed the beginning when their ages were mentioned because they did

read like 4 and 7 years old.

I don't know what it is about this - actually that's a lie. I didn't like the cliché tropes. This idea of he needs to tell me what to do! Or the miscommunication trope. Honestly, the pregnancy at the end was so out of left field and I didn't really appreciate it. Her ex-husband having cheated on her and having the audacity to invite her to his wedding? I just- no. The characters were all mostly two-dimensional, the plot wasn't all that interesting and the tropes! (She didn't realize how hot she was until she lost weight or he pointed it out - coooooome on!) The ending was nice but these two were just not my couple but I enjoyed the overall sense of the book.

This book started out so promising, but it went on for way, way too long considering all of the scenes were essentially the same. Also, none of the characters' ages worked for me. The children were written much older than the 7 and 4 they are declared, and Jenna read much younger than 30 - extreme naivete in modern heroines is one of my least favorite tropes, especially when that woman has been married and didn't grow up in a crazy religious household. There was also a lot of time spent on flash

There was also a lot of time spent on flashbacks for Jenna that I just didn't think were necessary and slowed the pace down. The chemistry between the characters was nice in the beginning even if it took way too long to come to something, and, once I just mentally aged up the kids, I liked them. But this book got so bogged down that my feelings about the characters suffered. Also, all of these characters were basically perfect people, which meant there wasn't a lot of conflict that wasn't manufactured - "Oh, you're my employer and lalala."

All that said, I really enjoyed the NZ setting and the rugby talk, and that ended up being my favorite thing about this. I don't know if I'll read more from this author or not - maybe if there are some freebies - but this one didn't compel me to go out and read the others in this series.
