a rousing climax to the most ravishing love story of the modern age. tempestuous, tormented Frodo at long last learns to accept the love of his lifemate - the loyal and submissive Samwise Gamgee, bottom-extraordinaire. this is truly a tale of love's labour hard-won, and at such a cost! but love conquers all in the end, and even bitter, militantly hetero villain Sauron cannot stand in the heart's path for too long. in this third book of the torrid trilogy, Frodo's love-hate relationship with the concept of commitment - deftly symbolized by a gorgeous, one-of-a-kind, designer ring - reaches a dramatic fever pitch, as he wrestles with his awkward feelings about monogamy & gay marriage in the boiling, repressive deserts of "Mordor" (clearly a stand-in for maverick Texazona). fortunately, the maternal Sam is constantly by his side to offer succor - forever the wind beneath Frodo's wings.

â™¥ â™¥ â™¥ â™¥ â™¥

the incredibly racy & erotic atmosphere is filled with a circuit party's worth of soldier types, as well as many classic queer icons: butch trade turned romantic male-model Aragorn; saucy friends-with-benefits Merry & Pippin; the tough & dour yet loveable uber-dyke Arwen; little bear-daddy Gimli; cringing closet-case Oh My Precious; fey pretty-boy Legolas; the exquisite drag queen enchantress Galadriel; and of course, presiding over them all, flouncing from scene to scene, battling his nasty sourpuss of an ex-boyfriend Saruman, and just chewing up the scenery like no one else...the fabulous and effervescent Gandalf the Gay. you go, girlfriend!

â™¥ â™¥ â™¥ â™¥ â™¥

despite the couple dozen unnecessary scenes of Sam staring dreamily into Frodo's sad sad eyes, this is truly a flawless and timeless gay classic, one that boldly states Love Is a Glorious Burden That We Must Ever Shoulder. love knows no boundaries. and even the smallest of men can have the biggest...."heart", i suppose. queer fave Enya even contributes to the soundtrack. Return of the King is a luscious, deliriously homoerotic fantasia.

oops, forgot i wasn't reviewing the thrillingly fagstastic film version. well, as far as the novel goes, it is perfect. i wouldn't change a word. even the poetry is awesome.

All that fuzz about a ring that can turn you invisible? You may think, but that was the least of its properties. Its major use was being able to control of the rest of ring-bearers with it, and if you think about that many of the most powerful beings in the Middle-Earth possessed a ring, well, it seems logical why all that fuzz. Moreover, a factor that not usually is pondered is that The One Ring also helps to extend the lifetime of a being to an absurd expanse, and since Sauron is just a â€œshadowâ€• of his past self, itâ€™s evident why he needed The One Ring so bad.

I commented in my review of the first part,

, about my theory of the plans of The One Ring. Not Sauronâ€™s. Not Sarumanâ€™s. But the One Ring. It was obsessed about the Hobbits, since they were the last bastion of pure goodness in the whole Middle-Earth. Without making any spoilers, I am kinda sad that while it wasnâ€™t due actions of The One Ring, bute vil powers damaged that idyllic of a more simple life. Also, I think that the whole thing was unnecessary to the main story and even over-extending the tale kinda ruining the â€œfinalâ€• climax of the war.

Back, in

, Bilboâ€™s first act having The One Ring wasâ€!

I've just finished a re-read of the trilogy. There is only one lord of classic literature and his name is Tolkien.

Sixty years later Tolkien's epic tale of men, hobbits, elves, dwarves, trolls and goblins is still relevant.

In my opinion this was the best book of the trilogy. The Return of the King gave me ALL THE FEELS like nothing else, I got pretty choked up at the last chapter. The Return of the King contains a ton of appen

I've just finished a re-read of the trilogy. There is only one lord of classic literature and his name is Tolkien.

Sixty years later Tolkien's epic tale of men, hobbits, elves, dwarves, trolls and goblins is still relevant.

In my opinion this was the best book of the trilogy. The Return of the King gave me ALL THE FEELS like nothing else, I got pretty choked up at the last chapter. The Return of the King contains a ton of appendices, and the readers can find out the conclusion for each of the Fellowship members. 'The Tale of Aragorn and Arwen' is one of the most beautiful things ever written (I really wish it hadn't been left out of the main story).

People have asked me who my favorite character was, and it's impossible to answer. Aragorn, Faramir, Frodo, Arwen, Sam, Legolas, Gandalf, Gimli, Boromir, Merry, Pippin, Galadriel, Éowyn, Éomer, Glorfindel, Haldir... I love them all.

I leave you with this wonderful art. Kudos to whoever made this.

Alex Farrand

is the last installment of the Lord of the Rings Trilogy. Can the companions defeat the power of Sauron? Will there be peace in the land of Middle-earth once more, or shall the darkness overpower the world?

I want to write an amazing review for this series, because it deserves the best. I don't know if it will be amazing, but I will try. Tolkien made a wonderful world, and an epic journey across the beautiful Middle-earth. How amazing it was to walk side-by-side with the co

is the last installment of the Lord of the Rings Trilogy. Can the companions defeat the power of Sauron? Will there be peace in the land of Middle-earth once more, or shall the darkness overpower the world?

I want to write an amazing review for this series, because it deserves the best. I don't know if it will be amazing, but I will try. Tolkien made a wonderful world, and an epic journey across the beautiful Middle-earth. How amazing it was to walk side-by-side with the companions through his enchanted world. Even though the days grew darker as the companions rode closer to Mordor, he developed a picturesque world that no author could compare to. I really felt like I was in his world. I could imagine feeling every leaf, and tree with my finger tips. I could see the magnificent, beautiful Galadriel in her white dress like she was standing right in front of me. I could feel the presence of Sauron's power falling over the land. I have mixed feelings about the trilogy as a whole. I am very sad that it has ended, and I will have a book hangover for days, but I am very happy that it has ended for the companions. I never was so sad for any series to end, but very glad for the happy ending. I am very happy to have read this series. I put a lot of hours into the three books, and it was the most amazing time. I never regret reading these novels, and I will never watch the movies ever again. The movies do not live up to the stories that Tolkien created.

As I look at the books in front me I am just amazed at the beautiful written words that Tolkien created. By Jove, what an inspiration! The companions are my friends, and I worried for all of them once the darkness wrapped itself around the earth. I have watched the movies before, but I sort of forgot what exactly happened.

They are my friends, and I will never forget any of them for as long as I live.

The last line of the book Sam says "Well, I am back". That is how I feel right now. That line snapped me back into reality. I read it over and over again, and I knew the tale was over. So, here I am back in my dreadful reality. I am back in my world of infrastructure, sidewalks, and cars. Everything seems so dark and gloomy, especially living where I do in the winter. As I look outside my living room window the sky is gray, and the snow is dirty. The trees that are planted in the suburb do not look as beautiful as they once did in my eyes. Now, when I walk through a forest I will listen and search for the Ents and the Elves. When I sit on a grassy hill I will root around for a door knob to a Hobbit hole. If I am ever near a mountain I will look, and walk through the tunnels of the dwarves.

Here I part from my lovely friends. One day I will return to read you. You all are amazing. Yes, the novels are long, and it can be overwhelming, but every word read is worth it. For now these books will be placed back into their boxset with great care. I recommend it to everyone! Good luck if you have a chance! Happy reading. Please visit my blog here:

I'm currently buried in my final ever lot of university assignments, review copies and books I'm already currently reading (there's quite a few.) And here I am fuelling my reading addiction by picking up yet another book. How do I find the time to sleep?

I think I just need a recharge. You know how it is, right? In moments of stress we fall into one of our favourite books to rejuvenate the soul. And right now I need some time in Middle Earth.

A humongous review to follow.
