Morgan and Ali are fraternal twins. These sisters have a bizarre obsessive type love/hate relationship. Morgan has always felt that Ali has had everything handed to her while she gets the scraps that are left over. At the same time, Ali feels like Morgan has always been there breathing down her neck never letting her have a life of her own.

Ali has the personality Morgan wishes she had, the ease of making friends while Morgan feels awkward making conversation with people. Ali gets the men Morgan wants, the attention Morgan wants. Everything Ali hasMorgan wants. Morgan even feels that their mother loves Ali more than she loves her.

Sometimes Morgan wonders if life would be better without Ali in it....

The book opens in Newport, Rhode Island. The sisters are twenty-seven and attending a lavish wedding. Ali is the maid of honor and Morgan is a last-minute fill in bridesmaid. We are given first glimpse into the current state of the sisters relationship as the bouquet is tossed. Morgan wants to catch the bouquet but just as it seems like she's going to catch it, it instead falls into her sisters outstretched hand...

"the poisonous look that went from Morgan to Ali was a disturbing glimpse into the darkness that can cling to the underside of love"

This was an incredible book that I read over a few hours as could not put it down. Do not miss this one book lovers! Absolutely exceptional! I love a well written family drama that has twists and really exposed the unexpected nature of the human psyche. This is one of those very good books.

Yes it was that good. The plot is mesmerising and very well written, the pace is spot on, engaging from start to finish. The characters are crisp and exceptionally well done. It's just got everything going for it.

Ali and Morgan are twin sisters and after a terrible crime things will never be the same again. Ali has been jealous of everything in Morgan's life for some time, feeling like the twin in the shadows but little does she know the truth of what is really going on for her twin sister.

Thrilling, engaging, exceptionally well written, a unique plot and great characters. You cannot go wrong with this book. Trust me, those that love their twists and turns, characters of depth and nothing being what you expect will adore this read. Bravo Dianne Dixon! 5 whopping stars.

Twins. One the favored, the other hating her for it. Morgan thinks her twin Ali is the reason she cannot be the favored one and she sets out to sabotage Ali so she can feel what Morgan feels. Feel how it is to be second best all the time. Now they are adults and both are attending a wedding where Morgan feels Ali again outshines her. Once again Morgan is in Ali's shadow but after tonight's events no one can expect the far reaching effects these events will have. Good read. I would like to thank

The development of the two main characters, Ali and Morgan was very well thought out allowing them both to be complex yet somehow quite simple. Morgan being the character you just love to hate (in the beginning), and Ali being the one you feel the utmost compassion for.

This is an exceptionally well-written family drama with an abundance of twists and turns to keep you wanting more. I totally recommend this book to everyone who enjoys a mystery /thriller... However, "Be Warned" once you pick this book up... It will be hard to put down!!

A Truly Incredible Read!!
