What people Say:

F Macias-Mossman

It is one long anecdote disguised as a novel. A lot like "Devil Wears Prada," it is just a laundry list of incidents while working for the shallow, designer-clad perfectionist. It reads more like an article in Us Weekly, In Touch, and or the Mecca of all celebrity rag mag's, People.

What it is clearly the flaw in novels like "Nanny Diaries," and "Devil Wears Prada" is that the protagonist fumbles through the novel lacking any goal or purpose. Instead, these idealists, cute but not too cute young

It is one long anecdote disguised as a novel. A lot like "Devil Wears Prada," it is just a laundry list of incidents while working for the shallow, designer-clad perfectionist. It reads more like an article in Us Weekly, In Touch, and or the Mecca of all celebrity rag mag's, People.

What it is clearly the flaw in novels like "Nanny Diaries," and "Devil Wears Prada" is that the protagonist fumbles through the novel lacking any goal or purpose. Instead, these idealists, cute but not too cute young women lament over the horrors of working for demanding woman and display their own shallowness by painstakingly describing every brand and designer as if reciting some holy mantra. However, what I'll give Nanny Credit for, over Prada, is that at least Nanny is short and concise. Truly a gossip column of "did you know!" whereas Devil painfully goes on an on.

It's a definitely a light read, requiring very little from the reader. However, from a cultural perspective it is interesting how we continue to vilify the successful woman and how we must focus on her flaws. Even more interesting is how the one doing the undercutting is other women. I don't dare pretend that these hardened woman don't exist but rather that there is now a whole market exploiting them.

This book was a gift while I was working as a nanny. At first it was funny, with all of the little observations that all nannies make- mainly about a certain, small subsection of women who hire nannies- the wealthy, entitled, narcissistic bitches.

As the story progresses, it becomes obvious that the children are the losers, the parents have no business being parents, and the nannies do nothing to help make the family a better place. Instead

they whine about mistreatment, go along with abuse, and

This book was a gift while I was working as a nanny. At first it was funny, with all of the little observations that all nannies make- mainly about a certain, small subsection of women who hire nannies- the wealthy, entitled, narcissistic bitches.

As the story progresses, it becomes obvious that the children are the losers, the parents have no business being parents, and the nannies do nothing to help make the family a better place. Instead they whine about mistreatment, go along with abuse, and try to replace the parent with their own immature version of love.

The account was infuriating because there was a great deal of truth in it, and it made me so upset (recognizing the same characteristics in children, nannies and parents of my acquaintance,) that I finally refused to finish the last few chapters.

What made the whole thing worse is that the book is written in a vain, selfish-masquerading-as-selfless, preening, whiny voice, that made me want to reach through the page and tell her to grow some cojones (and take a writing class or two.)

Thanks but no thanks, this book is a binner.

Jennifer Holland

I read this during a series of fifteen-minute breaks at my job. In the interest of full disclosure, I have a bit of a grudge against any book packaged as chick-lit, the literary equivalent of low-cal fast food. However, I thoroughly enjoyed both *The Girls Guide to Hunting and Fishing* and *Prep*, and understand that genuinely good fiction is sometimes whored out with candy-colored covers so they'll sell, and I'm always happy to be taken by surprise when that's the case. Not so with this book. Now,

I read this during a series of fifteen-minute breaks at my job. In the interest of full disclosure, I have a bit of a grudge against any book packaged as chick-lit, the literary equivalent of low-cal fast food. However, I thoroughly enjoyed both *The Girls Guide to Hunting and Fishing* and *Prep*, and understand that genuinely good fiction is sometimes whored out with candy-colored covers so they'll sell, and I'm always happy to be taken by surprise when that's the case. Not so with this book. Now, I love the blood-letting of rich people just as much as the next person, but I got no satisfaction here.

I hated the protagonist just as much as the mother for never standing up for herself or little Grayson, and I found her relationship with the Harvard Hottie (H.H.? Is that a nod to Humbert Humbert, Emma McLaughlin and Nicola Kraus? I promise, it will be lost on your readers.) completely implausible. It seemed like the authors were attempting to draw some sort of parallel between their relationship and that of Grayson's parents, i.e., this could be

in twenty years, Nanny, but then they chickened out. And the ending is

! Nanny can't even tell off that bitch to her face, she has to videotape it!

I read this book back when I was in college. This was actually the very first non-middle grade English book I ever bought! I had only bought some of Meg Cabot's Princess Diaries before then. But that was about it and none of that felt as "grown up" to me as The Nanny Diaries. Hmm, I just realized they were both 'diaries', huh? and to think I've never been one to keep any sort whatsoever! Anywho...

I still remember how I was so awed by the writing from the very first chapter: it was so sophisticat

I read this book back when I was in college. This was actually the very first non-middle grade English book I ever bought! I had only bought some of Meg Cabot's Princess Diaries before then. But that was about it and none of that felt as "grown up" to me as The Nanny Diaries. Hmm, I just realized they were both 'diaries', huh? and to think I've never been one to keep any sort whatsoever! Anywho...

I still remember how I was so awed by the writing from the very first chapter: it was so sophisticated for my college-aged-English-as-a-foreign-language-mind. Too sophisticated in fact, I remembered using a dictionary manyyyy times throughout reading the whole thing.

I was tempted to go back and see if it really was

I was just awfully deficient in my English at that point in time. And I certainly will, if only I could actually find the damn book!

Ps. I decided to lower my rating to 4 stars since it was probably my impressionable self who gave it all 5 stars at first. Although it will remain in my favorite shelf for mostly nostalgic reason ;)

Ps2. Grayer was such a cute name!
