What people Say:

Ali M.

Great construct, beautiful illustrations, but surprisingly superficial in the end. I think Maria Popova's summary of this book on

has more punch than the book itself. There's no deep dive into the way that "should" rules our lives (for both good and ill), and the various forms in which "must" intersects it. And to be honest, the whole thing reads a little too much like a rich person's guide to the creative life. Yeah, sure, if I had been involved in a successful start-up in San

Great construct, beautiful illustrations, but surprisingly superficial in the end. I think Maria Popova's summary of this book on

has more punch than the book itself. There's no deep dive into the way that "should" rules our lives (for both good and ill), and the various forms in which "must" intersects it. And to be honest, the whole thing reads a little too much like a rich person's guide to the creative life. Yeah, sure, if I had been involved in a successful start-up in San Francisco and found myself with lots of dough and freedom after its launch, I might feel inclined to approach life sideways, too. I hate to be a hater, but there are much more helpful books out there on creating time and space for dream projects. See:

Emily (Obsessed Reader)

Visually, this book is outstanding. The artwork is wonderful, and I loved the colors. The book itself is very inspiring, and is filled with some GREAT nuggets of wisdom. I didn't get as much out of it as I

wanted to, but that isn't to say that I came away with nothing. I enjoyed reading it, and I think many people would get something out of it. For the artwork and quotes alone I would say it's worth a read!

Arminda Lindsay

Short. Gorgeous. All the reminders. Gotta be about my must instead of ". . . really should write a longer review."

Buy it. Read it. Gift it. Be about it.

Anna Alexander

I really wanted to like this book. It's an approachable, nice book a friend gives you when you're in a rut or you pick it up off the shelf at a bookstore for its cover appeal, however, there's not a lot of substance beyond the water color paintings and appealing splashes of color and text. What there is is the same conversation about the shoulds and musts but no talk of the HOW. There's a couple of tired analogies thrown in to keep the conversation going but I found no clear road map to getting

I really wanted to like this book. It's an approachable, nice book a friend gives you when you're in a rut or you pick it up off the shelf at a bookstore for its cover appeal, however, there's not a lot of substance beyond the water color paintings and appealing splashes of color and text. What there is is the same conversation about the shoulds and musts but no talk of the HOW. There's a couple of tired analogies thrown in to keep the conversation going but I found no clear road map to getting to the HOW. I'm not saying the author has to hold my hand but encouraging me to start a blog, post an Instagram photo or start a monthly book club seemed, well, lame.

I'm sure others will get more out of this book than I did and I do hope it leads others to get beyond their shoulds, but it just left me wondering why.

Amy

Woulda. Shoulda. Coulda. Elle Luna uses her artists' palette and inspiring words to draw a plum line between all of the shoulds and obligations in our lives and the musts that drive our dreams and passions. From job to career to passion there is a way to achieve your dreams. Finding the right balance is key. Easy to read. Simple to understand. Great jumping off point for following your

dreams at any age.
