## What people Say:

### Sarah Actually

This book ended up not being totally what I expected going in, but it was still very enjoyable and I actually learned a lot. Thanks Aziz. And thanks for reading it to me, even though you kept calling me lazy the whole time. I'M NOT LAZY AZIZ. I LISTENED TO IT WHILE I DROVE TO AND FROM MY \*JOB\* OKAY.

It's fine. We're cool.

went on my TBR as soon as I heard rumors of its existence. We're talking about waiting for this damn thing (and also never being able to track down an ARC) . . .

Quick confession – I never bothered reading the synopsis for this book. I saw Aziz Ansari had a –romance– book coming out and my brain immediately thought it would be something like –Tom Haverford's Guide to Dating– . . .

If I would have bothe

So, this isn't really a

book about Aziz Ansari's dating experiences, it's more like a book about dating in the modern world, written by the very

Aziz Ansari.

I was introduced to Aziz's stand-up by my oldest son, and I've been hooked on him ever since. He's hilarious, and if you haven't seen him perform you're missing out. Which makes me wish I'd listened to this as an audiobook...

Turns out, Aziz and his partner, Eric Klinenberg, did quite a bit of research for this book. Now, is

Â the author teamed up with sociologist Klinenberg to design and conduct a research project to better understand the dating game as it's played today. Their research program included focus groups and interviews with hundreds of people in big and small cities , They set up a discussion forum on the social networking websites, interviewed experts, consulted books on sociology, psychology and human behavior.

the book deals with online dating

\* LMAO\* :D

Also the books deals with the struggle of finding your soul mate ,Asking them out, dumping,Â sexting cheating and snooping on your partner. And the differences between marriages now and then, Emerging adulthood, and lots interesting things about dating in our technology-saturated age. I loved every second of this audiobook, Aziz is such a funny actor/comedian

## Nandakishore Varma

I got married in 1989. In India in those days, "love" marriages were still exceptions rather than the norm: when you had to look at the religion, caste, family background, and age of a possible partner who was to share your life (divorces were absolute stigma!) before hitching up, falling in love was like solving a mathematical equation with too many constraints. For a nerdy, uncouth, shy and

bookish youngster who got tongue-tied in presence of a halfway-pretty girl, this was even more of a nightmare.

I got married in 1989. In India in those days, "love" marriages were still exceptions rather than the norm: when you had to look at the religion, caste, family background, and age of a possible partner who was to share your life (divorces were absolute stigma!) before hitching up, falling in love was like solving a mathematical equation with too many constraints. For a nerdy, uncouth, shy and bookish youngster who got tongue-tied in presence of a halfway-pretty girl, this was even more of a nightmare.

Fortunately, as an educated young man from an aristocratic family, with a good job to boot, my prospects on the marriage market were bright. In the world of arranged marriages, I was "hot property". Like Mr. Bingley and Mr. Darcy in

, mothers with daughters of marriageable age who knew my mother or father considered me as the rightful property of their daughters. Discussions of "possible alliances" were rife, and my mother was having to fend off quite a few of her more aggressive friends.

Even though it gave my ego a sort of boost to be so sought after, in my heart of hearts I was intimidated by the thought of marriage. On the one hand, I was an incurable romantic, always falling in love with a pretty girl and writing bad poetry; on the other, my cynical and sarcastic self continuously mocked me. Also, as a rebellious liberal, I was against the whole concept of "arranged" marriages. So I shied away from all the proposals, giving the excuse that I was not ready.

One day in February 1989, I went into my favourite bookshop and came across an unbelievable book sale where I picked up a bunch of absolutely awesome books for a pittance. I came home, drunk on my luck, when my mother told me that a marriage proposal had come from her classmate and close friend, for her daughter. In the euphoria of getting all those cool tomes, I agreed to see the girl's photo.

I got it a couple of days later, just took one look at it, and fell head over heels in love. A meeting was arranged the coming week; we talked to each other for around 20 minutes and hey presto! I was engaged. We got married that December.

We have been together ever since. So I always wonder: is romance all it's cracked up to be?

-----

Pardon this lengthy episode about my marital journey. I was continuously reminded of the "good old days" while reading this book, especially when I read this:
