Wrenlee is the face of Loaded Replay, but she's also a private person. The only people who really know her are her 3 band mates, Wes (her twin brother), Luke, and Jamison. That's the way it has to be. When you're a star, people take advantage of you and Wren has had that happen one to many times. Loaded Replay is in need of better security for Wren, so who better to hire than someone ex-military who works for Corps Security? Chance is just the guy for the job.

Chance is a professional and takes his job very seriously, but he can't control the sparks that fly when he's around Wren and the connection/chemistry they have. Chance battles some things from his past. He's concerned about hurting Wren. All he wants to do is protect her, but who can protect her from him?

is the first installment in the

series and it starts with the love story between Wrenlee Davenport (the lead voice of the group) and Chance Nash (Cohen Cage's best friend from the

series). Chance is Wren's new head of security, he is hired to watch the lead singer but sparks start flying between them since the first moment they lay each on each other. This story is about two jaded hearts that heal together.

What an amazing way to start this series, Harper! This woman has introduced a fantastic group of people that I am sure will give us the most amazing love stories. Loaded Replay has four components: Wren, Wes (her twin brother), Luke and Jamison. These people met at a very young age, all not loved by their parents and they haven't been apart since. I love the familiarity between them, the hilarious moments we experience with them and the emotional ones too. They are just an exceptional group and I can't wait for more!

I just love having a band that gets along so well and besides that, I love having a couple that has the most amazing off-the-charts chemistry. Wren and Chance are simply explosive: they definitely burnt my Kindle with all the hotness! I love Harper's alphas and her super-sassy heroines and Chance and Wrenlee are not an exception. They gave us lots of hot moments and lots of beautiful and sentimental ones too.

And even though Chance and Wren's relationship goes really fast paced, I have to say I did not mind it at all because Harper made me love them from the start. Moreover, we get a bit of suspense between this love story and I really enjoyed the emotional consequences we got from it! And can I repeat that I am extremely curious and excited about the other Loaded Replay members? Jamison is next and I am pretty sure he will give us a very amusing and wonderful love story!

This first book follows Wrenlee and the rest of her band mates while on tour. Her band members decide she needs a bodyguard after someone breaks into her hotel room, so they hire Chance to watch her. The two have some amazin

For those of you who like me read all of Harper's work, these two are no strangers. We could see upon reading the Hope Town series that when Chance set his eyes on Wren for the very first time at one of their concerts that something extraordinary would come from these two. And come it did!!! LOL

Wrenlee Davenport has been living a life of fame and success for five years now, but what only her closest family – her brother and bandmates – can see is that she is fast approaching her breaking point. For years she has wanted, craved even, something more. Or better yet someone! Someone who will see behind the well constructed facade of the sex symbol lead singer of one the world's most famous rock band and want her for who she truly is, for everything she is deep down!

And here enters our dark and handsome hero, Chance. I was already completely hooked on him while reading Unexpected Fate, but now, I'm just as dumbstruck as Wren was! Talk about swoon worthy!!!
