So it's about this girl, Hannah, who is crushing hard on a football player. She's not one to usually get this mushy over a guy, but he's caught her eye and she wishes she was on his radar.

The hero is a a guy named Garrett. He's a bad boy hockey player with a bit of a manwhoring reputation around campus who is in one of her classes and borderline failing. He's a smart guy, but this class just isn't his forte. Lucky for him, she's acing it... and he makes it his mission to get her to tutor him. Unfortunately for him though, she's not remotely interested in anything he has to offer in exchange.

After a few days of trying his best to wear her down, he finally comes up with an idea: he'll help elevate her social status by pretending to date her -- thus making her more likely to catch the eye of her crush IF she'll tutor him. She finally relents and the deal is formed.

But the more time they spend together, the closer they get... and even though Garrett swore he didn't want a girlfriend, he falls for her... and makes it his mission to show her that he's actually the guy she wants.

I loved the way their relationship developed almost by accident. Neither of them meant for it to happen. They just began hanging out, spending time together, and one thing naturally led to another. (Side note: after reading about them watching Breaking Bad together, I kinda want to watch the show too!)

Just to clear up a question I've been asked by several readers: there is NO cheating and no triangle in this story. He does hook up with two girls (literally just meaningless one-night stands) before he and Hannah become a couple. But once they're together, all that ends. So don't worry!

This book had the ability to make me swoon one minute, put my heart in my throat the next, then literally make me burst right out laughing out of the blue. Here, I just have to share this one scene...

Teeheeeeee!!!! C'mon, doesn't that make you want to read the book?? :D

What can I say about

that hasn't been said in hundreds of other reviews! Well, I can say I regret being so late to the party on this one. I had a friend recommend this to me when she read it back in February and every few weeks I would get a message from her asking if I'd read it yet (thanks for pushing, Jen!) I can't say why I waited to read this, I just got busy with other books. One thing for sure though, I'll be reading book 2 in this series very soon! No more waiting for

Hannah Wells is a smart woman. She is so smart in fact, she's one of the only people doing well in a certain class she's in. Garrett is having trouble with this class and it's bringing down his entire GPA, which he can't have being a star hockey player and all. So there is one solution. Get Hannah to tutor him. There is also one problem, Hannah is resistant to Garrett's charms. When she finally agrees, they strike a DEAL. They become friends, then they kiss. And everything changes.

Hannah and Garrett were perfect together. I loved their banter and friendship. I loved even more when it developed. They had such fantastic chemistry. And it wasn't just about the sex between them. Those weeks of friendship made them really care about one another and get to know each other.

I can say with absolute certainty that there wasn't one thing I didn't love about this book. And as much as I love books and love to read, that doesn't happen very often. I wouldn't change a thing about this read. If you're like me and haven't read this one yet, I encourage you to make it your next read. You won't regret it!!!

I'm not sure what more I can say that hasn't already been said about this delightful and entertaining book; therefore, I'll simply end with a quote from the story that captured my feelings perfectly.

See this face?

That's my face while reading this book. Yup. This book made me happy. Throughout the whole thing I was either giggling, laughing, sniffing, blushing, and then smiling and laughing some more.

And I'm not even sorry because heck, with so much shit happening in the world right now, it's nice to find a book that you can unabashedly get yourself lost in.

The Deal was another one of those unexpected reads. Unexpected because despite its simple plot, this book succeeded in taking over my heart and my mind. Always a good sign for a reader.

Like what I said, the plot for this book is simple. Hannah is college girl with a lot of baggage especially when it comes to sex, so when she finally found someone who makes her feel tingly, she was out of her depth especially when he seems to be unaware of her existence. But then solution comes in the form of cocky player Garrett Graham. Garrett's life revolve around hockey, so when he failed in one of his subjects, he needed a tutor or else he'll be dropped by the team.

When Garrett noticed that Hannah got an A on the same subject, he needled her into agreeing to his tutor. Hannah initially refused but Garrett was persistent. When Garrett found out about her dilemma, he offered a solution: he'll help her land the guy in exchange for a tutoring session. And thus begin their unlikely friendship.

This book completely charmed me, and is probably one of the best college romances I've read in a while now. While the premise isn't anything I haven't read before, I felt like the author took the idea and shaped it into her own unique tale, so trust me when I say it's not your typical NA romance riddled with common clichés. This book was definitely one of those unexpected gems: the more I read, the more I fell in love with the delight

This book completely charmed me, and is probably one of the best college romances I've read in a while now. While the premise isn't anything I haven't read before, I felt like the author took the idea and shaped it into her own unique tale, so trust me when I say it's not your typical NA romance riddled with common clichés. This book was definitely one of those unexpected gems: the more I read, the more I fell in love with the delightful main characters, the witty banter, and the steamy and impassioned romance. Elle Kennedy, you've got yourself a new fan!

A big reason to why this book was such a winner for me was the hero Garrett. It may be just me, but I'm a little tired of heroes who are bad boys and jerks...I mean, give me a guy who'll actually live up to the title of "hero" you know? And Garrett really did. He's a sports jock who's not only dedicated to playing hockey, but also in getting his grades up as well and has such a fun-loving, caring personality. It's really hard not to fall for him! When his grades drop though, and his hockey-playing goal is in jeopardy, he finds the class smartie to tutor him, leading him right to the heroine Hannah.

Studious and practical, Hannah is pursuing her goals as a songwriter/singer and is pretty confident

in all areas of her life, except her sex life that is. Sheâ€™s finally found one guy who catches her interest but with absolutely zero seduction skills sheâ€™s at a loss. When Garrett barges into her life asking for her to tutor him, they agree on a deal: sheâ€™ll tutor him so he can bring up his grades and be able to keep playing hockey, and in exchange heâ€™ll pretend-date her to catch her crushâ€™s attention.

I LOVE that thereâ€™s no insta-love, and heck, the attraction didnâ€™t settle in until later too. Hannah and Garrettâ€™s relationship is very much a gradual build, going from barely acquaintances to tentative friends to an explosive couple. But Iâ€™ll also admit that in the very beginning of this book, I wasnâ€™t fully into the story and the characters until later. I didnâ€™t like how judgmental Hannah was towards Garrett in the start, partially because her crush was in the same position (both sports players) as him and she chose to stereotype Garrett while glorifying the other guy, even when Garrettâ€™s actions were always honorable and meant well. But as I read on, my dislike for Hannah thawed out and I ended up really loving her character. I liked that despite her very strong personality, she had this layer of vulnerability and her backstory (actually, both hers and Garrettâ€™s) hurt to read. And of course, I loved Garrettâ€™s patience and understanding with her, and how he propelled their relationship forward one step at a time.

I also appreciated that there wasnâ€™t any contrived drama, which almost always exists in the NA books I read. Any and all conflict in this story was handled well, very thought-out and dare I say, practical too. I love that the author doesnâ€™t follow the norm and to balance out the angst, sheâ€™s got a wonderful sense of humor thatâ€™s evident in the story. Almost everything I highlighted in the book were passages of snarky/witty/laugh out loud hilarious banter that made me laugh the entire time I read. And the locker scene near the end of the book? Freaking EPIC I tell you!

Much like the way Hannah and Garrett surprised each other and everyone else when they fell in love, this book also surprised me in the best of ways.

Youâ€™ll hit gold with this book.

Take a chance and let this book work its charm on you too.

is a NA romance standalone and the first book in the Off-Campus series. Consecutive books will be about side characters.
