I think I like the

behind

better than the story itself.

It is relatively original and makes the reader curious, but the writing is so dry. I couldn't find the atmosphere anywhere I looked.

And the characters sure don't help, as they are as one dimensional as cut outs. I tried hard to connect with them, but hell, the immaturity is hard to ignore.

This is one of those times when you have to take the title and blurb seriously. Aerin, Seneca, Maddy and Brett really are amateurs, meani

This is the last exchange the sisters had before Helena disappeared. She was seventeen, while Aerin was eleven. Now it has been five years and four months. Everyone seems to have forgotten about Helena except for Aerin. The case remains unsolved even with Helena's body being found a year ago. Aerin just wants to find out what happened to her older sister. Now sixteen, she reaches out to an online crime-solving forum, Case Not Closed (CNC), known for solving cases the police couldn't for help.

Enter Seneca who is addicted to CNC and obsessed with true crime. Aren't we all? Only no..Seneca has a deeper reason for her interest in cold cases. She's a college student and is probably the most intelligent of the characters. Unfortunately that doesn't exactly mean much when it comes to sleuthing... But we'll get back to that. Seneca's best friend on the forum, Maddy, invites her to come out for spring break and look into the Helena case together because Maddy happens to live in the same area. The thing is: everyone has secrets and things have a way of going wrong in Dexby from the start. Could someone be trying to keep the amateur detectives from solving this case?

I liked this well enough for the mystery aspect and premise. Ultimately I was let down for the lack of characterization making it impossible to connect with the characters. Though I appreciate the diversity. There were also way too many plot holes. Too many coincidences. And every time the characters got too caught up in teenage things it was frustrating because we have a mystery to solve here! I don't understand why the characters had to be so dumb, truly taking the title seriously because these guys were straight up amateurs when it came to solving crime. Too many stupid mistakes were made.

It's unfortunate we only got a limited view of the Case Not Closed forum. There was only Aerin's original post and a very brief chat on the site. I just feel this was an opportunity missed. We could have seen the characters interact more on the website, especially considering most of them had relationships through the community prior.

However, I did like the big twist at the end done in true fashion.

Well, I think it's fair to say that Sara Shepard, aka. mystery/thriller/murder mystery goddess, has done it again with her latest novel, The Amateurs.

This novel was my most highly anticipated read of 2016, and I'm so glad it did not disappoint, even though I knew there was no chance it would.

It was crazy, exhilarating, and packed with mystery. It really got me being an investigator alongside our main clan of protagonists.

It was crazy, exhilarating, and packed with mystery. It really got me being an investigator alongside our main clan of protagonists.

I love how this book was told from such an array of different characters, we really got to see how everything went down for everyone, and the ways in which they went about things. I found it so interesting to be able to assess each character as they were seen from their own points of view.

However, the characters did fall sort of flat-ish for me at times.

Usually, the characters are one of my favourite parts of (well any novel), but especially Shepard's books. Even more so, the friendships between her characters draw me in the most, and I feel this book didn't quite have that same feeling as her other series, say like *Pretty Little Liars* or *The Lying Game*.
