This is difficult to rate. I hate it when the last book in the series is the weakest one. I hate it even more when the series in question is the one I love...It really makes me sad :(

After a lot of pondering I decided to give this book 3.5 stars. First half of the book deserved a 4 star rating but the second half wasn't as good so it deserved only 3 stars.

After a lot of pondering I decided to give this book 3.5 stars. First half of the book deserved a 4 star rating but the second half wasn't as good so it deserved only 3 stars.

If you had a chance to read my reviews of the previous books of this series you know that I gave them much praise and that the second book, Sword of the North, was one of the best sequels I've read.

When I started reading this everything was going smooth, the story picked up where it left off, the North was in a state of war and I was excited and eager to find out how will things play out. It also gave me an opportunity to once again enjoy the adventures of my favorite characters in this series, Brodar Kayne and his loyal friend Jerek, known as the Wolf.

The ending of the second book left us with a cliffhanger, an ancient race called the Fade were coming back to Trine with a threat to destroy all of the humanity. They are the focus of the second half of the book and in my opinion, they are the reason why everything went wrong.

The biggest issue I had with the Fade is their technology. They are an ancient race, a couple of thousands years old and they are using relics from a time they refer as "the time before". Those relics are hand-cannons and crystal swords and I didn't see a problem in that. They arrived on a huge ship wielding a huge cannon with enough power to destroy everything in its path. I didn't see a problem in that as well. BUT, when their ruler arrived by an AIRPLANE, that was the moment I had to draw the line! It doesn't end with that, they're using elevators, cameras, drones, mind controlling devices and all that stuff was simply too much for me to digest. The worst moment was when the main characters had to use that airplane to travel. This is not a steampunk or an urban fantasy so having an airplane transporting barbaric Northmen is just plain wrong! For fuck's sake! Why?!

I can understand that with inclusion of the Fade, author wanted to give this story a grander scale but

I think they were unnecessary because there were already enough interesting threads to explore further and conclude them in a better way. Although some of the conclusions were somewhat unsatisfying, the ending delivered a poetic justice.

Found the last part easier to acclimatise with than the middle book, mind thatâ€™s off the case.

Its a tried & trusted formulaic trilogy with book 1 getting all the gang together, book 2 sees them go separate paths on their quests whilst book 3 puts them all on converging paths for the grand finale.... sound familiar?? No honest im not pouring scorn on whats fast becoming a standard grimdark plot as I do actually enjoy it so long as I ration my fill of it which I have done of late & maybe

No honest im not pouring scorn on whats fast becoming a standard grimdark plot as I do actually enjoy it so long as I ration my fill of it which I have done of late & maybe one of the main reasons I so enjoy this series â€™ One series a cycle as I love to share my book love around a fair few genres & it jus doesnâ€™t seem rehashed to me. I really enjoy these style of characters, some they be sympathetic, others deeply misunderstood, gentle giants, gobshytes, right wicked bastards, spiteful cripple that you root for (sound familiar anyone?), sword wielding hero, Battle Axe(s) wielding hero, mages, Augmenters, witches covens, demons, the undead & some race who kicked the Elves arses & have us humans up next!!..... I think I covered most of the cast.

The downside, the book was split into 4 seasons & whilst I enjoyed Winter & Spring as it followed the story & our heroes..... Sumer & Autumn was told from a narration style where the story continued but was wrapped up in piece-meal here n there, parts were rushed, others seemed forced, some even contrived..... I wont say more but I did find myself not really enjoying the final ¼ of the book, it seemed a different writer & for sure a different style. I felt really flat at the end.....

Overall IF you read shedloads of Grimdark you may not find enough differences amongst this to entice but if youâ€™re an occasional into this genre & hanker for a newish author a la Abercrombie in character style you could do far worse than Luke Skullâ€™s offering of the Grim Company.

I likeâ€™s it immensely for about 2 & ¾ of the trilogy, 3 stars for the book & 4 stars for the trilogy overall.

You might actually think my review is a bit of a hashup! Fair point Id say & so is the book on review.....

Up there with my top trilogies (Mistborn B Sanderson and Broken Empire M Lawrence). Absolutely fantastic, this final book was the best one yet and soooo satisfying.

This had me on the edge of my seat, I could not put it down. I already want to go back and read the first book again.

The characters are awesome. I cared for each and every one. Usually there is an annoying one (well Cole is annoying but he's annoying on purpose so it doesn't count) but there isn't here. The development of each character is amazing. Splendid character arcs. And Kayne and Jerek, you nearly made me cry again damn you!! Best bromance ever. Even better than Mappo and Icarium.

The series is filled with such heart and jam packed with sheer brute awesomeness. I can't speak highly enough of this and I hope Scull revisits this world.

Great way to kick off my 2017 reading year!
