Okay, so I watch plenty of anime, but this is actually the first manga I've ever read. I liked it very much, BUT

...some parts

ticked me off, like:

-The lack of action.

-Yuki. She was

a bit of a goody-two-shoes. Which

-The story tended to get a bit melodramatic.

-The mystery parts could've been done better.

-The cheesy dialogue.

Stop me if you've heard this one before...there's a school that has a day school and a night school. The night school students are just a little bit different than everyone else...because they're vampires! Stop me if you've heard this one before...there's a school that has a day school and a night school. The night school students are just a little bit different than everyone else...because they're vampires! Okay, so the general concept has been turning up quite a bit in manga (and likely to turn up even more with Nightschool on its way to us from the lovely author of DramaCon). Still, this particular series seems to have more emotional tension and more engrossing characters than some of the vamp manga with a central triangle that's far more sexy than silly.

Yuki Cross and Zero Kiryu are the designated Guardians and eternal odd kids out at the school at the heart of this series. Neither has a family of their own and both have been taken under the wing of the eccentric head of the academy. In return they must stick to a grueling schedule balancing their life as normal students with their professional duties guarding the school's secrets and maintaining the peace. Not quite brother and sister but more than friends, their complicated relationship is up for some major tests. Yuki's growing friendship with Kaname, a pureblood vampire who once saved her life causes a lot of tension with the vampire-hating Zero. Then Zero's discovery that he himself was "turned" immediately sets the series up for even more drama.

Viz rates this series for older teens--most likely for violence (in one scene a bad vampire is literally split in two by a sword). While these scenes can be a little shocking, there's not all that many of them: the majority of the story is really dedicated more to the personal growth of the characters and the developing relationships rather than battle scenes (based on volumes 1-4 at least). Recommended for 14+...and for Twi-hards this could be an enjoyable crossover read.

Since I'm fairly new to Manga I'm not sure if they're all like this.

The dialogue was awkward and stoic. The characters all fell flat, except for Zero. I think he's the only one I liked.

As for Kaname and Yuuki, GOD! Those two are boring as heck. Every time they have a conversation I can't help but cringe. I'm not really sure where this is going but all the reviews I see are telling me to quit while I'm ahead, so I'm not sure what to do.
