was intense. I am the sort of reader whose emotional upheaval from a book carries over to real life. So, when the book made me laugh and I walked out of my bedroomâ€I mean Mum Cave to get a drink of water, I would smile and chat to my son. But, if Iâ€™m in an intense part of the book and my son DARED to knock on my door to ask a questionâ€he got squinty eyes and sneers for his interruption. Pretty much my day was an emotional rollercoasterâ€and my family suffered. I think my boys have gone to bed a little bit leery of me. Hopefully, they'll forgive me.

OMG!!!

If I didnâ€™t love this author and this series so bloody much, I would be REALLY cranky with the ending of

OK, so this is going to be excessively weirdly shortish (in other words probably not all that short in reality and slightly gif heavy), mainly as I have sucked donkey balls at reviewing lately, I am coming off the back end of a chicken pox quarantine marathon in my house and quite frankly nothing but gin has seen my through the last few weeks!

Also, not going to say much about this book, as it is a book that you have to have read 1 and 2 for, so if you have got this far you are clearly hooked already!

So, anyway, lets go back in time...a long long time ago (well about 18 months ago) and my reading book 1 in the series, all happy and enjoying it and then CLIFFHANGER!

Imagine that, but like x 1000.

Little innocent me...

Happy that i got my grubby little hands on book 3...

and then the end of this book!

However it is truly one of the MOST original awesome action packed crack laced page turner of a book/series I have ever read!! Adore March and Island. It is fun, full of drama and romance and quirky characters.

Island and March's relationship develops, there's a ton of action, plenty of quirks, and of course my favorite over the top faux romance novel quotes! I was smiling until the very end (even in spite of the cliffhanger).

Camilla Monk's that ending hurt! Can't believe

I'm going to be totally honest: Crystal Whisperer is my baby and it's my favorite of the three so far. It was harder to write than its siblings, but it's perhaps the closest to what I want for the series: a mix of light and darkness, cluttered with way too many obscure references.

It also paves the way for the series that will come after Spotless—a spin-off of sorts—and I love it for that reason too. For those of you wondering about that particular point, the hint is that I love Ancient Roman his

Still, I'm slamming it with a sizzling one-star rating because I started a tradition, and I intend to stick to it. That's tough love—or child abuse. I'll let you be the judge of that.
