3.5 stars. This reminded me of several other YA books I love (like Ruined by Amy Tintera), but was

The first half of the story set the tone for the series by establishing the war, the two kingdoms, and that one kingdom accepts magic while the other persecutes it. Britta wanders around the wilderness a lot with a guy, but there's no instalove because she already has history with him. Then the second half of the story picks up and starts weaving different storylines together and flipping everything you thought you knew around. I really loved two of the secondary characters!

The first half of the book was slower moving, but it also never got dull. It's a first person narration that actually worked for me because I liked Britta! The guys in her life have been pretty controlling and protected her by leaving her or not telling her anything (which

), so a lot of the story is her learning the truth.

And if you like the slower pretty scenes in fantasy books where characters are walking through forests (like in Shadowfell), then the world here is PERFECT.

I was also pretty impressed with how this story managed to be well-rounded while still setting up a ton of leads for the sequels! The last few sentences were bit of a cliffhanger that made the next book WAY more interesting. Pretty sure one of these stars is just for that ending!

Thank you to the publisher for sending me an ARC!

A solid 4 star read! I really really enjoyed this book! It was definitely a great fantasy novel I would recommend. The magic system was clearly introduced and not at all overbearing to the rest of the story. I did enjoy our main set of characters, though I wish we had a few more important side characters. (Ultimately, there's about 7 or 8 significant characters, 2 are dead, and all but three are barely in the story). I think my only other main issue was that I frequently loss interest in reading

(Ultimately, there's about 7 or 8 significant characters, 2 are dead, and all but three are barely in the story). I think my only other main issue was that I frequently loss interest in reading, not because the book was not good, but my own personal motivation to read. So while it wasn't because of the book content, it definitely put a damper on my reading experience. I felt it left off on an intriguing note for a sequel and I will for sure be continuing on with the series!
