I probably set my hopes too high for this part since it was a second chance romance, which is my thing. I didn't feel the chemistry between Owen and Natalie at all. Besides, I wasn't satisfied with the groveling part. I think it wasn't emotional enough. A little more drama please!

When I saw

To be honest,

felt like an action film. There's some mystery, action, and romance. Everything was well balanced,  
and I really enjoyed it.

The series is about the Loughman brothers. Wyatt is the oldest. Owen is in the middle. And Cullen is  
the youngest. All three of them are in the military. And all of them have been avoiding their home in  
Texas because of their dark past. When their father gets captured during a mission, the brothers are  
called in for help.

And all of them have been avoiding their home in Texas because of their dark past. When their father gets captured during a mission, the brothers are called in for help.

This book is about Owen. When he finds out how his high school sweetheart is involved with the mission, his heart starts beating again. He left her for a reason. And she deserves more than the life he can provide her.

Natalie's heart was in pieces when Owen left her. It took years to put her life together, but she did it. She learned to survive without him or any other man. But when she sees Owen, she knows that she can't keep him out of her heart.

The romance between the characters is sweet and touching. Owen is a true hero and does whatever needs to be done to protect Natalie.
