It's too bad this book wasn't published during summer, because it can make a cute summer read.

But then again, us living in Canada sure need books to make us feel warm during winter as well.

So no worries. You'll hopefully enjoy this whatever season you're in.

About the story, it's light, though it does deal with meaningful matters/themes like cheating, lying, education and relationships.

HOWEVER, and this annoyed me, the author doesn't develop them all in dept.

You'll notice, the book is pretty sort

(I received an advance copy of this book for free. Thanks to St. Martin's Press and NetGalley.)

This was a YA contemporary story about a girl who had sent nude pictures to an ex-boyfriend and had them published publicly.

Viviana was an okay character, and I could understand why she was so against having another relationship after her last one ended so badly, but the way she kept telling her best friend that it was alright to go after a boy who wasn't interested in

Viviana was an okay character, and I could understand why she was so against having another relationship after her last one ended so badly, but the way she kept telling her best friend that it was alright to go after a boy who wasn't interested in her (he was interested in Viviana), seemed like asking for trouble.

The storyline in this was about Viviana taking a summer job at the local pool with her best friend Sammie, and hanging out with Evan, the boy she had had her first kiss with when she was younger. We got a bit of a mystery over what was going on with Viviana's father, and Viviana being quite anti-relationship after her ex-boyfriend posted naked pictures of her online. Because of this the romance side of the story was quite slow, and we even got a bit of a triangle when Viviana kept telling her best friend to go after Evan instead!

The ending to this was pretty good, although the truth about what Viviana's father was up to was quite shocking.

So this is the book I expected: an over-stressed, over-worked, high school perfectionist with trust issues learns to open up to "Mr. Right" and live in the moment.

That's not the book I got. This book is not a typical YA romance. In fact, it's not really a romance at all.

This is a book about struggling to keep things together when your life is falling spectacularly apart.

Viviana has

Viviana has

. It goes deeper than the humiliation she feels from her first love spreading around her nude selfies in retaliation for their break up. This incident puts her in the hospital with a severe case of anxiety. Viviana's parents put enormous pressure on her to get into an elite college, and her father is livid that the nude pics might bar her from Stanford (how?). In fact, her father is so disappointed he's moved out of the home and gone off to Singapore. If that weren't enough pain, Viviana also struggles to repair her relationship with her mother. Then she learns the truth about her father, and it's something that would land even the most well-adjusted person into a lifetime of therapy. With all this going on, she learns her best friend, Sammie, is moving away, and they spend much of their last summer together fighting over a boy. Then there's a mentally ill professor living in their apartment complex who somehow is going to teach a bunch of teens some important life lessons (sigh).

I loved the cover for this book and with the promise of coming of age with a slight romance in the mix, I thought it would be for me. While it was an ok read plus I read it in a couple of hours it didn't blow me away, so due to this, I would have to give two and a half stars.

Viv is obsessed with being perfect, with her parents breathing down her neck to always hit perfect grades and make good life choices

Viv is obsessed with being perfect, with her parents breathing down her neck to always hit perfect grades and make good life choices, suddenly she finds herself lost. With a scandal involving her ex-boyfriend and some x-rated pictures brings her world tumbling down the only person she can trust is her best friend. After she has a small accident causing her to have a blackout due to stress her parents decide she is to take it easy this summer instead of the time away she had planned, so when her bestie gets Viv a job with her at their apartment complex pool for summer it's going to be fun... right?

I feel there was too much happening in the book too quick for it to be so short, plus I would never do what Viv did to her best friend, really? Would you risk a friendship of a lifetime for someone you don't know You knew what was going to happen there instantly as the story progressed. As for everything else it was just a bit all over the place, I don't get why some parts were even put in the book. I did love the parts where they would make up stories about their neighbours, myself and my friends used to do this when we were younger which brings back some hilarious memories.

I didn't really connect with any of the characters, yeah they were cute and preppy but they never made an imprint on me which is a shame. I feel that Viv's parents were completely out of order, I don't know if it's because I'm so close to both my mum and dad and they always just want me to be happy. As for the x-rated pictures, most people and have been there and done it, it's the type of world we live in today so I totally felt her pain even though it hasn't happened to me but a similar occurrence has graced my presence in my younger years.

I'm glad that I read the book as I wasn't disappointed, it just wasn't for me, but I can see why people would like. Young romance readers would love this!

Ever since I read How To Be Brave last autumn, I have been waiting for Mrs. Kottaras' next novel, and she does not disappoint. Her writing is spot on once again, if not even better than what she showcased in her debut.

This time around Mrs. Kottaras brings us a story about trying to overcome traumatic experiences and learning to love yourself, that is filled with relatable characters. I was hooked from chapter one, and I would've finished it in one sitting if it wasn't for reality getting in the
