suspense, to the boring storyline itself, to the main protagonists whom I could not care for, and last but not least, the incredibly annoying and self-centered twat of a younger sister (Emily) who, big surprise, did not crush under her HUGE ego and even survived her seriously stupid case of whiny-titis, Going Deep just failed to deliver on several levels.

A few examples of Anne's very good writing and her classy smexy bitsâ€¦

What I actually truly enjoyed was the long shower sex scene. That, I know, is no surprise at all. As expected, the writing was very good, I sure won't deny that fact, but it's hard for me to finish a book, let alone enjoy it, when I don't connect with the main protagonists or when I end up bored by a storyline that provided too many mundane occurrences. I thought the heroine to be way too bland and uninteresting. Also, I really wanted to smack Emily, Cady's younger sister. No, let me rephrase that: I wanted to remove her entirely from the story. She was just awful and got on my last bloody nerve. Even her young age could not serve as a lame excuse.

In my book, Going Deep lacked the usual and anticipated Anne Calhoun magic. Regardless of this unexpected letdown, I'm looking forward to her next novel.

I'd recommend you to check out

, my absolute favorite gem by Anne Calhoun. As I see it, it remains unequaled.

The cop hero is protecting a singer/songwriter. And I'm happy that my favorite author is releasing a new full-length novel coz Anne is rocking my book world. Always.

Anne Calhoun definitely has a way with writing chemistry between characters; Cady and Conn had some electrically charged scenes, enough to get me hot and bothered, and that was the best part of to me. I can't say that the story knocked my socks off or that it was particularly compelling, but it was entertaining. The romance was low in frustrating relationship drama, a plus for me.

When a story is categorized as "romantic suspense" I look forward to some exciting twists and turns, some danger, and while it was a surprise to find out the identity of the stalker/saboteur I was a little disappointed. The ending just sort of fizzled out for me, both with the mystery and the romance, even though I was happy about how things turned out between Cady and Conn.

was an uncomplicated, nice romance, easy to fly right through.

Rocker Cady Ward is finally home. After a long tour, all she wants to do is get home, close the door and relax. That is, until a fan with a bit too much zeal has her publicist demanding a body guard.

Conn McCormick is a full time cop that works security part time. That's how he made an impression with the rocker chick that he helped save from a rabid fan. It's also how he is now spending his time during an Internal Affairs investigation against him.

I must be honest in telling you that I love the

I must be honest in telling you that I love the Alpha Ops Series. I really enjoyed Conn and Cady together in and out of the sack. It's a fun read filled with some personal drama, a little danger, and a whole lotta sexy!

It's a solid 4 star read for me.

While Conn is protecting Cady, he is also under investigation for beating a criminal in lock up.

Both Cady and Conn are facing mysteries that they must uncover to bring them peace of mind and safety.

This story is touted as a romantic suspense but I felt it was more mystery because there wasn't

a lot of action. The romance was predictable and the story contained a lot of dialog that didn't seem to pertain to the plot.

Overall, the story had an easy flow with writing that has a way of describing you into the scenes.

In the fifth book of the Alpha Ops series, Anne Calhoun follows around a Cady Ward aka Maud, a well-known singer as she returns to her hometown. She's going to need some extra security so she hires a cop named Conn McCormick to make sure she's safe.

I was a little surprised that Calhoun decided to take the rockstar trope. It's not something I thought she would do but it is something different for her readers. While I liked Conn, I wasn't completely sold on Cady's character just because I found so

I was a little surprised that Calhoun decided to take the rockstar trope. It's not something I thought she would do but it is something different for her readers. While I liked Conn, I wasn't completely sold on Cady's character just because I found some part of the book to be unbelievable. If she really was as big and famous as she claims to be, wouldn't she already have bodyguards to protect her? Why does she suddenly need Conn? I think the reasoning was a little weak but it did bring the hero and heroine together.

I'm glad Calhoun wrote this as a full length novel because although I do like the shorts, I believe her writing is much better when she has the time to explore and expand. I will say though that parts of the dialogue had be scratching my head. Sometimes I didn't really think what the characters were saying pertained to the book or furthered it in any way so I could easily do without that and just stick to the bare bones of the story. Nevertheless, I do enjoy Calhoun's writing style. It's very eloquent and easy to follow.

I think this series title is a little misleading because it implies that there's going to be a lot of action and suspense. Many readers would probably assume it's going to be Romantic Suspense, but I would probably just categorize it as Contemporary Romance. Calhoun is known for her sexy Erotic Romances but I don't think sex is the focus for this series. It is definitely more of a Contemporary with some fun action scenes so I would just keep that in mind while reading.
