is the first story in McLaughlin's new series,

, which goes around telling us the love stories of the boy band "Virtuous Paradox", starting with Bodhi. Bodhi McKnight is a celebrity child with a famous actress and a famous film producer as his parents. His heart has always been in the right place but the pressure today's music industry puts on him, forces him to turn to coke for help so he can deal with everything on his plate. But he got at a point where Life had to draw a line, tell him "That's it! You had enough!" and send him to rehab. And maybe that place for the most addicts seems like Hell, but in Bodhi's case, it gave him a purpose to change himself, his lifestyle and his life's priorities. And what " or better

" is that purpose? Well, it hears at the name Kimberly Gordon; his one-to-one person for psychological support and to make his stay as more bearable as possible. Although, neither imagined what kind of "bearable" his stay would turn out to be.

So I've heard a lot of great things about

and her previous rock star series and I admit that I really wanted to delve into those books prior to reading this. This is my first Heidi McLaughlin read. Sad to say, I was disappointed.

While

has an interesting premise about a rock star falling for an ordinary woman who helps him get over his drug addiction, this book was ruined by a lot of things. For once, both the male lead and the heroine were not likable enough for me

This is a very tough review for me to write. While I have adored prior books from this author, this one just didn't work for me.

In Blow, we meet Bodhi, member of Virtuous Paradox (a boy band...) who is now set to spend the next thirty days in rehab for his drug addiction. While there, he meets Kimberly who will be his one-on-one person to help him while he is the program.

So although there were times when I really liked Bodhi and Kim and thought their growing romance was sweet as could be, I just never got over my issues with the story.

Drug abuse is not a sexy topic in a romance. But it was so glossed over that it sort of took away from the experience for me. The idea that he was so addicted, but yet within a day or two in rehab, wasn't really having a single issue. That the whole, addiction sort of took a complete backseat to the forming of the relationship. Now, this is a topic that hits close to home. And just like with other themes, sometimes care is needed when using a topic like this in a story. I just didn't like how this was used as a prop vs adding layers to the story.

There was also one other thing that threw me off a bit. In the midst of a sexy time moment, where I'm expecting the dirty mouth of Bodhi (which I was loving) to make an appearance, he uses the word twat. Twice. It killed the mood instantly. Do men ever say that?

Even though I really wanted to love this one, I just couldn't get past the issues I had that started pretty early on in the story. But again, my reaction was 100% personal and although I did not love this book, it will hit the mark for so many other readers.

is one of the members of a famous boyband named Virtuous Paradox. He has everything in his life: Fame, money, house, cars, women etc.. However, not having a good family relationship because his parents aren't affectionate and he's longing for their love for years. That depressed him and he starts using drugs to forget his stresses in life. Without knowing, it's destroying his life and career. When his father knew his addiction, he puts him on rehabilitation. Refuse to complete his treatment, he'll lose everything.

On the rehab facility, he meets

as his carer. She's the daughter of his father's family friend and they will help Bodhi to be better. Things got steamy between this two despite it's forbidden for a patient to have a relationship with his carer. Being with her, he feels better but how long does it take for him not to be tempted on using drugs?

I like it's told in dual perspective and the writing style of this book is good but the story gave me mixed feelings. I'm okay with the forbidden romance but I'm not invested with the insta-love and I don't like these characters blurred the lines too fast. So much raging hormones for these two. Also, I didn't like that the addiction and recovery wasn't emphasize and was taken over by romance. The process of recovery takes time and addiction doesn't disappear with a snap. I'm underwhelmed by this book as these characters have an unhealthy relationship and lack of development.
