What people Say:

Chelsea Humphrey

This book was the definition of suspense and compulsive reading. I didn't want to put it down! As this was my first experience with a

novel, I wasn't sure what to expect, but my Nana Book Bestie assured me it was a must read and I had to get my hands on it. As always, her recommendation didn't disappoint and am happy to say I'm the newest member of the K-Belle Fan Club! After a few longer books, I was looking for something to be a quick, thrilling read that I could get through in

This book was the definition of suspense and compulsive reading. I didn't want to put it down! As this was my first experience with a

novel, I wasn't sure what to expect, but my Nana Book Bestie assured me it was a must read and I had to get my hands on it. As always, her recommendation didn't disappoint and am happy to say I'm the newest member of the K-Belle Fan Club! After a few longer books, I was looking for something to be a quick, thrilling read that I could get through in the blink of an eye, and here it was!

My greatest pleasant surprise was how much I connected with the characters in this story. Usually, when I'm reading psychological suspense, I enjoy the thrilling aspects but feel the character depth and development is lacking; not so here. The characters were diverse in gender, sexuality, and race, but without being so in a pushy, "trying to be diverse" kind of way. I also loved how it felt I was along the journey with Iris; I kept wondering just where we would end up, and while I didn't feel this book contained a large twist, I was grateful for that. Too many times I've entered into a book with my expectations hinged on one shocking moment, and this book was more reliably enjoyable. I found comfort in a "normal" ending as it caused me to focus on the characters and writing style in greater detail.

If you are looking for a quick read that you simply can't put down, I highly recommend picking up

. It had all the components of a book to bust your reading slump and get into the groove of enjoying reading again. This is just a personal note, but I would LOVE to see a spin off book featuring Evan Sheffield and his personal journey after the events of TML. Also, I may have a slight book crush on him. Book Boyfriend Evan; it has a nice ring to it.

Ever wish that you just

have to rate a book? That you could simply read it, ponder its significance, or lack thereof, and then

move on? For us avid reviewers here on Goodreads, that's not really an option. We take our *job* very seriously, as we should, because there is an emptiness that lingers after finishing a book when we

outwardly express our thoughts in some way. It can almost feel as though we didn't read the book at all—we become those trees, crashing down

job very seriously, as we should, because there is an emptiness that lingers after finishing a book when we

outwardly express our thoughts in some way. It can almost feel as though we didn't read the book at all—we become those trees, crashing down soundlessly in deserted forests.

But sometimes it's hard being critical, dammit. And not every emotion can be adequately explained or fairly measured through a limited band of stars. I'll give it a shot, though, so my experience with this book doesn't frigen disintegrate.

I'm giving this book three and half stars, but it's a really GOOD three and a half stars! I

TANYA

Although the story is not very original, it still had a few surprises. This book had my attention from the very beginning and kept it till the very end. I'm impressed, a very good read.

Norma

Okay first off I am definitely all about how a book makes me feel while reading and after finishing it.

The emotions can either be positive or negative doesn't matter it just has to make me feel something. Have you ever felt like you were just reading a book just to finish it? To be totally honest that is how I felt. It just seemed like I was just reading it and knew what was going to happen next. Although I did like the storyline and the characters which kept me interested enough to finish this

Okay first off I am definitely all about how a book makes me feel while reading and after finishing it. The emotions can either be positive or negative doesn't matter it just has to make me feel something. Have you ever felt like you were just reading a book just to finish it? To be totally honest that is how I felt. It just seemed like I was just reading it and knew what was going to happen next. Although I did like the storyline and the characters which kept me interested enough to finish this book otherwise it was definitely a strange feeling for me!

THE MARRIAGE LIE by KIMBERLY BELLE is a good domestic psychological thriller that had me pretty engaged and interested throughout the first half of this book. Then it fell a little bit flat as I could see where everything was headed and there were no real surprises for me along the way or even on the outcome. So with that being said I am pretty sure that is why it just wasn't a better read for me.

KIMBERLEY BELL does deliver a well-written and interestingly enough read here but with typical characters. I did really like the premise of this story and needed some clarification on some of the events that transpired to keep me wanting to turn those pages to get to the ending.

To sum it all up it was an interesting, slow-paced, suspenseful, quick and easy read with a satisfying and twist ending! Would I recommend if asked? Sure it was still mostly enjoyable!
