What people Say:

Carmen

I don't think this book was very good.

It's about a polar bear who lives at the North Pole.

We see that all animals in the North Pole are white, for some reason. Even the walruses?!?! This book has lost me already.

His seagull friend flies to a girl, who improbably wears a little white animal outfit all the time... o.O, and she sends the polar bear a painting of a rainbow.

The girl realizes she will have to go to him. So she sails to the North Pole.

Cute book with nice illustrations. I hate to sound knit-picky, but kids who read picture books are learning new things. There is no such thing as a seagull, there are however gulls. We need to teach children the proper names so that we can break of cycle of misinformation.

Miss Sarah

A white bear living in the arctic longs for something he doesn't know is missing until a young girl takes him on a world wide journey where he is introduced to color. I didn't like the colors weren't named. Sweet story. Toddler and up.

Lynn

The contrast of white and rainbow colors was visually appealing, but the text did not excite me. I thought it was a bit awkward. I miss how the trip around the world helped Bear see the Northern Lights.

Casandria

A young girl shows a polar bear the world, in all of its colorful beauty.
