Nell and her boyfriend Pete are off for a weekend in Paris, or so she thinks. Pete turns out to be a no-show and Nell decides to stay and experience the city of lights on her own.

I actually loved this meandering and delightful story. Nell is such a straight arrow who steps outside of herself and turns a potentially crummy set of circumstances into a wonderful adventure. I enjoyed this immensely.

This story about a PR nightmare has just the right touch of irony. Short but it hit the right notes.

A woman's husband surprises her with a getaway vacation but it can't conjure up a bygone romance. This was so realistic it almost hurt but I loved the ending.

A married woman encounters her former secret lover at a party and both have regrets they didn't even know they had. While this was not one of my favorites, it still was pretty interesting.

Paris for One is collection of two novellas and 9 short stories.

(or I should say novella) was

. It is a standalone novella, but is also connected to Moyes' full length novel

. 80 pages long, the story follows two couples placed in different time, separated by 80 years, who's stories together make a whole. Even though I really liked it, I think I would appreciate it even more if I have read the novel.

It is fun and easy to read, but I think

because characters were really bad when it comes to communication. If there were no mobile phones, the story would make more sense.

This novella is takes up over half the book and felt like a thorough open and close story. I enjoyed it and clearly felt the Paris setting and the heroine's emotions. This was a good one.

Jojo Moyes is known for her engaging books that look at romantic relationships with insight and humor. This is a collection of nine contemporary stories. After reading weeks of depressing political commentary in the newspapers lately, it was fun to escape to this light, entertaining book. It was just what I needed!

4â~† Great collection of short stories

This is my first book by Jojo it was a fun read with some great stories.

Each short story is very different.

However they feature romance, some humour, breakups, secret love affairs, a little mystery and lots of different emotions.

They give a portrayal of life and the problems women face within marriage and relationships. Not every story is written with a happy ending.

Paris for one is the main story and it literally is what it says.... Nell embarks on a trip wit
