I liked this one better than the first in the trilogy, "Grunge". I still don't like the main protagonist much. I just get the feeling I'm hearing John Ringo's voice being purposefully -- and needlessly, IMO -- provocative rather than just telling the story. But others may feel differently.

While I don't like this trilogy nearly as much as I like (love) the source (Monster Hunter International), it was worth reading, IMO. There's some good stuff with a much younger Milo and some interactions with other beloved MHI characters as well.

If Chad were not such a douchebag, it probably would have been rounded up to 4 stars.

4.5 Stars

This was a very fast paced action story, but it felt a little choppy at times. Remember the first Monster Hunter Memoirs having more of an over arching story. Hope Iron Hand writes another

memoir picking up where this one left off.

Monster Hunter International is a ridiculous sounding title for a series that is consistently amazing. Both the Memoir books have been short, fast, and fun. This one took place in New Orleans, and it had a bit of everything as far as monster go. Zombies, ghouls, shadow monsters, and even unearthly terrors living in the ocean.

I eat every one of these books up like candy (this one I read in an afternoon), and my only complaint is that I really wish Larry would go back to the main story. He left u

I eat every one of these books up like candy (this one I read in an afternoon), and my only complaint is that I really wish Larry would go back to the main story. He left us on a major cliff hanger years and years ago, and instead of following through, he has written three books now that deal with side characters. I suspect he is doing this to introduce us to the four chosen heroes... but enough is enough. I want the main story to continue!

New Orleans goes to hell. Really. Monster hunters may have met their match, a city that doesn't sleep.

## Roy

Reads like above-average fan fic. That's not a bad thing!

I highly recommend the audio version, if only for the main character's drunken rendition of the "The Good, the Bad, and the Ugly" theme. I wonder how it's spelled out in the print version...
