In fact, the teenage girl that finds the body is none other than the daughter of Detective Regan Pescoli. Bianca tells her mother that just moments before discovery the body that some type of Big Foot/Sasquatch type creature was chasing her. Pescoli wonders "Did my daughter see Destiny's killer? " As the police search frantically for more clues, more young women go missing, the killer gets even closer.

I enjoyed reading the book, but didn't feel that it was hard to put down. Straightforward mystery solving, good characters, but I had pretty much figured out "whodunit" right away.

Thanks to NetGalley for an e-arc of this book in exchange for an honest review.

Book Him Danno

I struggle with this review because this is the first book I have read by Lisa Jackson and it is book in a series.

This story seem to just trug along and at times with the endless backstories that I am sure are for first time readers to the story but honestly just got this reader lost many times over. I am not sure I could count how many different characters were in the book and some that were not necessary at times. I get that Detective Regan Pescoli is an angry woman and pregnant. I couldn't c

This story seem to just trug along and at times with the endless backstories that I am sure are for first time readers to the story but honestly just got this reader lost many times over. I am not sure I could count how many different characters were in the book and some that were not necessary at times. I get that Detective Regan Pescoli is an angry woman and pregnant. I couldn't connect with her as a reader which made it difficult to connect to the story. I believe the author created Selena Alvarez for those who couldn't connect to Regan but instead of connecting I felt the story was disconnected and the characters had zero chemistry.

Many times the story simple fell flat and I struggled even finishing the book. Characters were hard to connect with, unnecessary characters in the story and the ending fell flat and unbelievable at times.

This book might give her followers the story they wanted but for new readers to her books it turned this reader off.

I received a free copy of this book from NetGalley in exchange for an honest review.

Ms. Jackson does a phenomenal job of crafting edge-of-your-seat suspense. I've been a fan ever since I read Deep Freeze. This book gets your heart pounding and keeps you reading well past your bedtime. Pescoli and Alvarez make a great team and kick ass when it comes to taking down the bad guy. The murder investigation is proving to be quite tricky in this case, not to mention a Bigfoot sighting that is a puzzler.

This author is always on my auto-buy list. Read one and you'll see why.

Only daughter Destiny finds out she's eight weeks pregnant, she couldn't tell her mum and dad or the father of the baby as he would be pissed. She needed to tell her boyfriend Donny that she's pregnant. Destiny told her folks that she was going for a walk, but was really meeting up with Donny in a remote area of woods. Destiny and Donny have an argument, and Destiny ends up having to run,run, run! for her life to save her and her baby.

3.5 Stars

This was a quick read for me; I was immediately pulled into the story and through most of the book didn't want to put it down. There were moments or stretches where the story lulled (hence the rating). At some points in the police investigation, the investigation felt like Selena and Regan were spinning their wheels. I know this happens in real investigations and it did feel real to the story. However, in a story this is where the side plots need to keep you involved and the story inter

This was a quick read for me; I was immediately pulled into the story and through most of the book didn't want to put it down. There were moments or stretches where the story lulled (hence the rating). At some points in the police investigation, the investigation felt like Selena and Regan were spinning their wheels. I know this happens in real investigations and it did feel real to the story. However, in a story this is where the side plots need to keep you involved and the story interesting. Instead it felt like the story lulled and I had to do some skim reading to get back involved with the plot.

In this one, Regan was getting more page time than Selena and I thought, during and especially after I finished, that both her current husband and her ex didn't get enough development. From a personal standpoint, I wanted to see more of Santana and from a plot standpoint, I felt that Luke, the ex, needed more development. Part of this could be that I haven't read the prior books in this series. But for me, Santana, Regan's current husband, seemed very flat.

The plot centered on the death of a high school girl, Destiny, and the relationships she had with other kids both her age and those older than her. And unfortunately with the number of "persons of interest" and their respective parents it was difficult to remember who was the son or daughter of whom, or was the BF of whom, who was the sibling of whom, etc. Plus when additional bodies start turning up, it did get to be a busy read.

Overall I did like the plot, I liked the team of Alvarez and Pescoli and I like Lisa Jackson's writing. And now, I think I need to start reading this series from the 1st book...
