"That's Me Loving You" is a gorgeously illustrated book about how parents are still thinking and sending love to their little ones even when they are far away. The illustrations are lovely and dreamy and really stand out in this book. The story is simple and sweet. It's a perfect bedtime story!

It had always been my plan to go back to work after I had my girls. It was a hard decision but the right one for me and my family. Even when I'm gone, I want to make sure that my girls know that I am still

It had always been my plan to go back to work after I had my girls. It was a hard decision but the right one for me and my family. Even when I'm gone, I want to make sure that my girls know that I am still thinking about them and sending them love. They are too young to really get that message but they do know that their mom and dad always come back.

This is the perfect book to share with little ones to show that love can come in unexpected forms even when we are far apart!

Very sweet. I prefer Rosenthal's funny books, but it's a strong choice if you're looking for something reassuring.

First sentence: Wherever you are, wherever you go, Always remember and always know...That shimmering star? That's me winking at you. That drifting cloud? That's me thinking of you. That inviting ocean? That's me waving at you.

Premise/plot: This book is openly and unashamedly sentimental. But don't discount it because it's about LOVE. A parent loving their child fiercely. Picture books about love are everywhere. That's true enough. But this one has its quirky humor too: "That persistent mosquito?"

My thoughts: I picked this one up at the library a day or two after Rosenthal died of ovarian cancer. I think reading the book in light of this fact makes it poignant and ultimately beautiful. Yes, every parent loves their child and wants to comfort their child. Yes, this book could be read by parents to children struggling with separation anxiety. But it could have a much deeper meaning, a life-long meaning, as well. This book was dedicated--is dedicated--to her three children. And it's a wonderful goodbye-and-hello.
