This is one of those rare occurrences when a book managed to catch my full attention from page one. Usually it takes me a few chapters to get going, but here I was already certain of my future rating and ultimate enjoyment right off the bat.

The story follows Emery Finn, a young woman whose job it is to bring lost souls home and to provide closure for the families and friends of missing personâ€™s. Itâ€™s a job that is close to Emeryâ€™s heart, having spent the past 13 years haunted by the disappearance of her then 13

year old cousin, Tiffany.

Upon her uncle's death, Emery throws herself back into the task of solving her cousin's disappearance, leading to the search for a mysterious man, only known as Wren, whose name was left among her uncle's personal case files. Emery's often forceful investigative techniques lead her to the man in question "who is anything but easy to find" and sets into motion surprising new leads in her case, as well as new and unexpected feelings of the heart.

Wren is a "fixer." When important people need a problem solved quietly and discreetly, Wren is the man they turn to. He has a certain skill set that allows him to get difficult things done. Sometimes these things require a certain moral objectivity, but generally speaking, Wren works in the employee and in the assistance of those worthy of help. Very few know his true identity and even fewer know enough to get into contact with him. Yet, Emery has been asking enough questions and triggering enough of the slightly paranoid man's alarms to gain his full, undivided attention. Emery is intriguing in ways Wren hasn't found appealing in far too long, and her personal plight to find her missing cousin hits far too close to home, leading to Wren's promise of assistance in solving the case once and for all.

I'd classify this as a romantic suspense, but it was fairly low on the suspense. Sure, the whodunit portion of the story was fairly basic, but I actually reveled in the simplicity of the mystery. It allowed me to focus on the characters and the enjoyment I was finding in the amusing banter they shared.

I loved how strong and determined Emery was. She didn't suffer fools gladly, and although she was combative towards Wren a lot of the time, it was more amusing than annoying. She never behaved recklessly or irrationally, and she always trusted that he knew what was best in terms of her safety. Basically, she wasn't a mindless damsel in distress, but she knew when to allow herself to be protected when needed. It was refreshing.

And then there was Wren. Oh boy, this guy was a delicious treat. He was mysterious in an intelligent, composed, protective, unwaveringly trustable kind of way. As a bit of a loner, Wren isn't so great with the interpersonal skills, so the conversations, often monosyllabic and unintentionally bossy, came across as hilarious and inevitably charming. He put Emery first from the moment they met, and even though he wasn't so great with expressing himself clearly, he opened up to her in ways he had never opened up to another in his life, which thankfully was something Emery recognised and valued the significance of. He was also hot and swoony, so there is that.

I enjoyed this story greatly and I've decided that

I do

recommend this book to autistic readers. I would advise trauma survivors to tread cautiously, & check out the trigger warnings before reading.

I read this book looking for a strong heroine, a story about a fixer, and heat. (That's how it was recommended to me.)

The heroine is definitely my favorite character in the book, and is strong in many ways. Some of the moments where she pushes back against controlling men in her life are the best parts of this book. (With a notable exception

I read this book looking for a strong heroine, a story about a fixer, and heat. (That's how it was recommended to me.)

The heroine is definitely my favorite character in the book, and is strong in many ways. Some of the moments where she pushes back against controlling men in her life are the best parts of this book. (With a notable exception that I will get to in a bit.)

If you get on board with the non-negotiated power play in their sex life and see it as consensual, it is pretty damn hot, and one of the things that is working best in the book.

I don't enjoy the mystery part of mysteries, so I cannot speak to the whodunit part of the story, seek other reviews for information about the thriller/mystery piece.

Gretchen (About That Story)

When I read the synopsis for this book I totally fell in love and was super excited to read it. Not only did I love it, it surpassed my expectations!

Seriously, right from the beginning I was hanging on every word. Since this was romantic suspense, in my head I was expecting intensity but what I got surprised me and I loved it. It had this light, fun vibe happening that had me smiling. Wren and Emery were great characters. They

When I read the synopsis for this book I totally fell in love and was super excited to read it. Not only did I love it, it surpassed my expectations!

Seriously, right from the beginning I was hanging on every word. Since this was romantic suspense, in my head I was expecting intensity but what I got surprised me and I loved it. It had this light, fun vibe happening that had me smiling. Wren and Emery were great characters. They had awesome verbal sparring going on that was challenging and entertaining.

I loved Emery so much. I loved how strong she was and her perseverance and dedication. The woman is the definition of determined, it was great. Wren was equally fantastic. Closed off but protective, I loved learning all of his details. I really liked Wren's history and how it was laid out, keeping me guessing and wanting more. I was on edge of my seat as he opened up. It was really fantastic seeing him grow and step outside of his comfort zone. Both Emery and Wren had amazing chemistry and loved watching it build. It was fun and sweet and passionate (and oh so hot!).

The story involving Emery's past was great too. I loved all the suspense and the challenge that it brought to their growing relationship. While I did think the story was light in a fun, witty, verbally combative way, there was a good bit of tension too as the story unfolds and all the pieces come together. It was a really solid story and I thought the writing was excellent. Really great details and great pace, it flowed nicely.

I loved Wren's friend Garrett and the relationship they had. Anything that has to do with manly friendships and male bonding I'm a big fan of and I loved everything I got. I am just so impressed and excited for more.

Sign me up for the next story!

Frankly, the lighter vibe was refreshing! It was everything I could have asked for.

3.75 FIXER STARS

This was refreshingly different and a nice surprise. I enjoyed the alpha male in Wren and I liked how Emery was a strong minded woman. Those two combinations together is a recipe for exciting banter and constant power struggles between each other.
