was a great addition to this series. We got to revisit past characters, but not in a way that they took away from the main characters story. Sophie and Forte really grabbed my attention and I loved getting to see them together. They were both well developed characters and I felt like we got to watch them grow as a couple. Their relationship was pretty slow, but it never lost my interest.

My 3.5 rating comes from the ending. I just never got that sense of completion once I was finished reading, and the story seemed like it wasn't finished. At least for me, I was looking for more to give me the feeling that the story was actually over.

I will still definitely recommend this book for romantic suspense lovers. Despite my feelings on the ending I did enjoy this book and think many others will too. It had a great romantic build up, a sexy Hero, and an adorable dog. What more could I ask for?

### The Book Disciple (Samantha)

Link to full review below! Book 3 in the series and while it is a stand alone, important events from book 1 and 2 are mentioned and play a role, so it is better to read in order. All the books are great though, so its not a hardship to read them all!

I liked the raw emotions that came from the book and I enjoyed the build-up of this second chance romance. However, I was a bit confused and didn't really "believe" that the romance between them was real. They seemed like they were just friends throughout the novel and I didn't get any feelings of true love. This may just be me of course, but there seemed like something was holding these two back and I can't exactly put my hands on WHY.

Readers who enjoy sweet, romantic suspense novels may enjoy this novel and I do recommend it. The book has many redeeming qualities that although feel a little flat to me, may make someone else swoon!

Having loved the previous two books in this series I grabbed the chance to read this one and, not surprisingly, found it to be another enthralling page turner. I don't think you'd have to read the first two to appreciate and enjoy this one, though they do follow on from each other. The characters are well developed - and that includes the canine and feline as well as human ones.

Having loved the previous two books in this series I grabbed the chance to read this one and, not surprisingly, found it to be another enthralling page turner. I don't think you'd have to read the first two to appreciate and enjoy this one, though they do follow on from each other. The characters are well developed - and that includes the canine and feline as well as human ones.

Brandon Forte returned to his hometown after leaving the military. He has set up a training facility for military service dogs, Hope Crossing Kennels, running it with two other ex-military men (the romances of whom feature in the first two novels in this series). Needless to say, their canine charges are also stars in the stories! Brandon's main reason for returning to his hometown is Sophie Kim. They've known each other since high school and are friends but both would like to be more - though they haven't told the other one that. The action packed story starts explosively and continues in a fast paced, action packed thriller as Brandon and his team try to protect Sophie from repeated attacks, strive to determine why she is the target and keep her safe.

This is another suspense filled romance from this talented author whose personal knowledge of owning and training retired working dogs is a key element in the stories. As usual when I read her books, I really didn't want to put it down! I have no hesitation in highly recommending this to anyone who enjoys well crafted, suspense filled, covert action packed novels with alpha males (human and canine) and feisty females in danger with a canine military dog playing an important role, too!

I was gifted a copy of this, without obligation, via NetGalley. This is my honest review.
