The inner-geek in me loved this book so much. Picture this! an EMT with a hero complex goes to a huge convention center where the roof has just caved in and there are multiple injuries. So, whats going on at this convention center? Comic-con. Cosplay. All the fun and geeky things in life. Zach has never been into this stuff. In fact, he actually doesn't care for video games at all.

They've consumed his younger sisters life and it frustrates him beyond measure. But when he's called to this comic-con, he meets Kiera who is dressed as a warrior princess from a video game. It's completely out of character for him, but Zach finds Kiera irresistible.

"Kiera is a bit of a geek and a gamer, but she is also a successful graphic designer. She stays to herself a lot, but that's just her personality. Zach is a people pleaser, a helper, and likes to do things like play basketball and hang with friends. These two don't have much in common, but I guess it's true what they say! sometimes opposites attract.

I really enjoyed this story and I liked the fact that these two brought out a lot of good in one another. Zach had Kiera be a little more sociable with him and less of a workaholic. Kiera showed Zach that gaming wasn't this awful thing he imagined. I also liked the way his sister, Aimee was incorporated into the story. There are family issues and other things going on, but the story between the two MC's is very sweet and sexy.

was my first Erin Nicholas read and I can definitely say I will be reading the next book in this series, which will be about one of Kiera's roommates, Maya. The story kept my attention and I liked both of the main characters. There were moments that seemed a little predictable, but overall it was still a nice read.

What sets you on the path of life? Is it an action, a forceful hand or something you just know inside of you? I have two young boys. My youngest wants to be a rugby league player or a baseball player. I encourage him to try his hardest and work towards his goals but I also remind him that anything can happen and he should keep studying hard. Now, when it comes to my oldest, he wants to be a gamer. This bloody scares me. He's 13 and I have this horrific image

My youngest wants to be a rugby league player or a baseball player. I encourage him to try his hardest and work towards his goals but I also remind him that anything can happen and he should keep studying hard. Now, when it comes to my oldest, he wants to be a gamer. This bloody scares me. He's 13 and I have this horrific image of him at 28 sitting in his room (at my house) and gaming all day and night. To be honest, there is no chance in hell that hubby and I will let that happen. But, I think that's what you picture when you think about someone gaming.

gave me a wee bit of a different picture.

Kiera has what she thought was a perfect life. She's a graphic designer for a game that she helped a couple of mates develop when they were in College. This game is now extremely popular but is also very time-consuming. It's not unusual for Kiera to spend days in her pj's in front of her computer. Her friends Maya and Sophia decide enough is enough and force her to step outside. Kiera is happy to do it and talks her friends into going to Comic Con with her. Dressed in her costume, doing what she loves AND keeping her friends happy, nothing could go wrong!

Zach is a paramedic that's been called to a ceiling collapse during Comic Con. Up to twenty thousand people were inside and could be trapped. It's all hands on deck to try and save as many as possible. Walking into the building was a sight to behold for poor Zach. There are creatures and characters of all shapes and sizes. Is the blood fake or real? Did that creature lose a limb? This job just got a lot harder!

Things are crazy and it's getting harder for Zach to work out who's hurt and who's not. A beautiful princess catches his eye and he's drawn to her. She's a little dazed and agitated which brings Zach's protective instincts front and centre. There are a lot of people needing his help but he can't help but keep this woman close to his side. Lucky for him, he soon learns that the princess speaks the language of these creatures and helps him to assess and manage their treatments.

Kiera is worried for her friends, feeling a little unsteady on her feet and a wee bit overwhelmed. When the lovely medic takes her hand and helps her out, she can't help but cling to him. Together, they do some good and when it's time to finish up, there's a connection that neither can deny. It's kind of a shame, but also lucky for Kiera that at the end of his shift she

blacks out in his armsâ€¦!

is about a man who has been on a path to helping as many people as he can. You could pretty much say that Zach has a hero complex. His path was set many years ago when he was saved by a brave man and he knows he wants to be just like that. Zachâ€™s family has recently had grief land them low and heâ€™s trying to help his sister Aimee and parents get past their grief. He wants to help them but he feels like he's getting nowhere. His parents don't seem to be improving and the only thing that seems to have Aimee's attention is a computer gameâ€¦that his princess helped design.

Kiera is coming to realise that by avoiding heartbreak and emotional conflict, she's also avoiding life. Her friends are there for her with no questions asked but she sees now that she could be helping them more. Putting Zach on the temporary shelf could have led her to miss one of the most remarkable things to happen in her life.

Both Zach and Kiera are good for each other. They help each other look outside the bubble theyâ€™ve created and see what else is on offer.

My first read from Erin Nicholas was a success! I adored this story and these character and was the epitome of a good contemporary romance. It made me happy that I've started to read these again.

Their story is the type that will leave a permanent smile on your face and just overall make you happy while you read this. Overall, this is a must read and I hope many people will have this on their

Kiera Connelly is a quiet graphic designer that is perfectly happy to spend all of her time locked in her room either helping design the virtual world of the game she plays or playing along with her online friends. With her friends injured in the accident and no where to turn she finds herself being saved by a real life knight when Zach offers to care for her and finds that the two share an undeniable attraction even with them being so different.

Completely Yours is the first book of the Opposites Attract series with of course two main characters that couldn't be anymore opposite of one another. Zach is the outgoing, need to be in control and help whomever he can type while Kiera is more the push others away and run when things get tough type. The two have instant chemistry though and through their time together they come to find that they have more in common than once thought.

The story begins with a huge accident which was enough to grab my attention and drag me into this story rather quickly. I also loved that the characters in this story had time to grow together and seemed to make each other better people than they were. Zach having the issues with his family needed Kiera just as much as she needed him to learn to trust making this one feel good story.

I received an advance copy from the publisher via NetGalley.

I'm always on the hunt for sorbet and I loved the premise for this book.

Kiera and Zach are perfect opposites. They're both really good people, but that's where the similarity ends. She's a bit of a loner who loves to cosplay and he's a bit pushy with a hero complex. Together they have ridiculous amounts of chemistry. I truly enjoyed being in their heads and reading them learn and grow.

This plot line was almost all fluff, which is my favorite. The small amount of angst was dealt with quickly and in the most satisfying way.

Overall, it was a quick and cute read. I would have loved more from the epilogue, but I'll definitely be looking for more in the series.
