## What people Say:

### Kathy Heare Watts

God is so good, and He wants us to enjoy life, have a life that is abundant. Each day should be considered a blessing and with that blessing, comes thanksgiving. If you are reading this, you woke up today, that is a blessing. We should all delight in God's Good Gifts.

I live at the foothills of the Great Smoky Mountains, and I am in awe of His creation.

I won a copy of this book in a Goodreads giveaway and am under no obligation to review. All thoughts, opinions, and ratings are my own.

I am now passing this book along to a family member in the ministry.

### Jennifer Grisham

This book is basically Randy Alcorn's Happiness in a shorter form, with more application and less Hebrew/Greek translation. The ability to enjoy things as gifts from God directly combats the exaltation of frowny-face Christians, who confuse enjoyment with idolatry. Newbell wants readers to avoid the equally paralyzing ditches of idolatry and indifference toward God's good gifts. She doesn't assume that life is a "box of chocolates" but trusts that God gives good things because he is good. I part

This book is basically Randy Alcorn's Happiness in a shorter form, with more application and less Hebrew/Greek translation. The ability to enjoy things as gifts from God directly combats the exaltation of frowny-face Christians, who confuse enjoyment with idolatry. Newbell wants readers to avoid the equally paralyzing ditches of idolatry and indifference toward God's good gifts. She doesn't assume that life is a "box of chocolates" but trusts that God gives good things because he is good. I particularly enjoyed her chapters on work and the arts.

Title: Enjoy

Author: Trillia J. Newbell

Genre: Christian, Nonfiction, Women, Self-Help

Plot: Have you ever found yourself enjoying a delicious piece of dark chocolate and then feeling guilty about it later? And then your guilty feelings prompt you to eat more chocolate, less enjoyably this time around? Well, Trillia Newbell's new book will help you to break that cycle by offering you this one radical new thought: God wants you to enjoy that chocolate. Heaven is a long ways away but once we're there

Title: Enjoy

Author: Trillia J. Newbell

Genre: Christian, Nonfiction, Women, Self-Help

Plot: Have you ever found yourself enjoying a delicious piece of dark chocolate and then feeling guilty about it later? And then your guilty feelings prompt you to eat more chocolate, less enjoyably this time around? Well, Trillia Newbell's new book will help you to break that cycle by offering you this one radical new thought: God wants you to enjoy that chocolate. Heaven is a long ways away but once we're there, no earthly chocolate will ever compare. Till then, those little bits of chocolate or walks in the sun or the pride you feel in your newly cleaned house or sex with your husband - all of that are just tiny tastes of the joy to come, and they are God's little gifts to us to remind us of His love and to help us get through each trying day till we get to heaven's door.

So grab that box of chocolate, a notebook and a pen, and dive right on in to discover how you can enjoy God's daily gifts and become a happier, more content person today.

Likes/Dislikes: Drawn in by the luscious raspberry on the cover, I figured this book would be a fun little thing to spend a week reading. It was actually quite surprising, very encouraging and I'll have to read it again to further absorb this slice of enjoyment and encouragement that I so thoroughly needed. I particularly enjoyed the food chapter. Some of the chapters started out well and then bogged down in the middle before trying to wrap up and conclude but most were interesting. I told my husband he has to read this book. Th sex chapter was aimed mainly at singles so I got nothing from it but that's okay; I already enjoy sex with my husband. \*wink\*

## Caitlyn Santi

I have some mixed feelings about this book, on one hand there were some excellent moments in which I was in some cases reminded of things in a slightly new way as well as times that certain things that I had read or heard over the years finally made sense to me in the way this author broke it down for the reader. But on the other hand I found myself often feeling like it was expected that I would have forgotten from one chapter to the next that the reason I enjoy God's gifts is out of love for h

I have some mixed feelings about this book, on one hand there were some excellent moments in which I was in some cases reminded of things in a slightly new way as well as times that certain things that I had read or heard over the years finally made sense to me in the way this author broke it down for the reader. But on the other hand I found myself often feeling like it was expected that I would have forgotten from one chapter to the next that the reason I enjoy God's gifts is out of love for him and all that He has done for me, in other words, enjoying all the good gifts from God is more about enjoying, worshiping and glorifying Him and growing in my relationship with Him rather than just focusing on the gifts themselves. This truth spoke to me deeply and blossomed in my heart the moment it was first written in this book, but I did get a bit frustrated that I kept being reminded of

something that was already at the forefront of my mind and heart, something that I hadn't yet forgotten. I realize that perhaps this was because the book is designed to be read over a number of weeks, but since I got this title to review I ended up with only a couple days to read it. If I had the time to read it over a longer time span then I don't think I would have been at all frustrated with that bit of repetition because I realize it is necessary if you are only reading a chapter or so a week. I don't often read non-fiction, but when I do I personally prefer to get a conversational vibe from the author (even when discussing very important things) and while there were definitely moments in this book where I did feel like the author was using a conversational tone, there were unfortunately also times where I couldn't help but feel as though I was being talked at rather than to.

Overall though I am glad I read this book and I do plan to re-read it in the future, perhaps reading just one particular chapter that speaks to my life at a certain time. I definitely did get a lot of positive information from this book that truly spoke to my heart and I do look forward to turning to it for reminders when I am in a place in life where the truth I know may feel out of reach.

If this book sounds interesting to you then I do recommend you give it a try, but I would suggest reading one chapter a day or a week rather than all at once in order to give yourself time to reflect and soak in the truth presented in that chapter.

I received a copy of this book from the publisher. No review required. The above review is my honest opinion of this book. All thoughts and opinions are one hundred percent my own.
