by Marjane Satrapi). There were a lot of situations where she managed to describe feelings similar to mine that I hadn't thought someone capable of writing so perfectly. I found this collection to be entertaining and along the way made me feel less alone, which is why I'm loving memoirs as of late.

Also, I knew I was in for treat when the very first page made me crack a smile (at 6am nonetheless). Kendrick's got a bunch of embarrassing, inspiring, hysterical stories and I managed to laugh out loud at least once during each one. I kind of never want to leave her brain.

I'd rate this 4.5 stars.

So, I kinda have a thing for Anna Kendrick. I've been (healthily) obsessed with her since 2003, when she appeared in an indie movie called

, which was about kids attending a performing arts summer camp in upstate New York.

Anna played a young girl named Fritzi, who had an obsession with a girl named Jill, who starred in most of the plays that summer. But Jill mistreated Fritzi, so in the end, Fritzi got her revenge, as you'll see in the clip at

Not only do I think she's an exceptionally talented singer and performer (I've worn out tracks from

I was kind of expecting this to be funnier, but the whole book was still a pretty fun read because she doesn't take herself too seriously and is completely self-aware. There were a few parts where I laughed out loud! But it was mostly an honest & open narrative that gives a different perspective on Hollywood.

I'm not a super huge fan and don't know very much about Anna Kendrick outside of the roles she's played, so I didn't realize she came from such a normal background and has such a regula

I MADE IT!

Disclaimer: smoking weed after reading Stephen King's

is apparently a bad idea.

I'm not into biographies. Not unless they are historically and/or politically important. Nevertheless, when I got a probably historically important one (haven't read it yet), I also got this one, hoping it would make me laugh (Anna Kendrick's movies aren't bad and she seemed like a funny person).

Sadly, this book was soooo disappointing. I guess I should have known because she is only about half a year older than me and unless you grew up in a war zone or something similar, how interesting / good can an autobiography of someone so young be?! Moreover, the title already made the hair at the back of my neck stand up (sheâ€™s neither scrappy nor a nobody so how pretentious is that?).

## Lola Reviewer

Typical memoir from a celebrity â€“ not much juicy info â€“ and dull, especially regarding the love-life department. But Ms Kendrick does write well.
