I am replacing a review that strangely has gone missing and been deleted on Goodreads. This is a compelling and complex crime thriller which grabs your attention and never lets go. It shines a light on the world of vlogging, and the people and corporate interests that inhabit this segment of the media. It is a world where a young unknown person can be catapulted to super stardom and megabucks. A new and well resourced police unit has been established under the control of the politically ambitiou

I am replacing a review that strangely has gone missing and been deleted on Goodreads. This is a compelling and complex crime thriller which grabs your attention and never lets go. It shines a light on the world of vlogging, and the people and corporate interests that inhabit this segment of the media. It is a world where a young unknown person can be catapulted to super stardom and megabucks. A new and well resourced police unit has been established under the control of the politically ambitious Justin Hope. DCI Kate Riley and DS Zain Harris are called in when Ruby, a successful vlogger, is abducted. Shortly after, disturbing videos are posted online which lead to a frenetic investigation.

Kate and Zain have troubled pasts. Kate lives with her mother who needs constant care after suffering a devastating attack. As a result, her mother has the condition Prosopagnosia, face blindness. Zain is struggling to keep himself together after events that occurred in his last post. They look into Dan Grant, another vlogger and Ruby's boyfriend. Dan is an unpleasant, flawed and arrogant young man who has let his celebrity lifestyle go to his head. Ruby and Dan were contracted to the suspicious and shadowy MindNet that set out to exert almost total control over their clients. There are connections with unspeakable and criminal corporate actions and misconduct in Africa. There are behind the scenes political machinations to control the unit. There is even a 'deep throat' character. The unit struggle to get a hold on exactly what happened to Ruby, and there are further threats. What will it take to find out what exactly is going on?

The novel has very short chapters resulting in a tense, suspenseful and fast paced narrative. I really enjoyed the fascinating insight into the world of vlogging of which I knew little. The story is well plotted and engaging. The characters are interesting and complex. The whole unit goes out of its way to resolve the case and the relationships seem authentic. Highly recommended book. Many thanks to Bonnier Publishing for an ARC.

I loved the blurb on this book and really wanted to read it. But it wasn't exactly what I thought it was going to be but, it was still an okay book. Don't let that keep you from reading it though because as we know, we all have different opinions.

I thought this was going to be all about vlogging and it's not. Yes, it's what started the whole thing but the book takes off with conspiracy and worse.

Ruby Day is in her twenties and she's a vlogger. She makes tons of money (like many do) by have peo

I loved the blurb on this book and really wanted to read it. But it wasn't exactly what I thought it was going to be but, it was still an okay book. Don't let that keep you from reading it though because as we know, we all have different opinions.

I thought this was going to be all about vlogging and it's not. Yes, it's what started the whole thing but the book takes off with conspiracy and worse.

Ruby Day is in her twenties and she's a vlogger. She makes tons of money (like many do) by have people sponsor her vlog or giving her free stuff. She's a really kind person on her vlog, but something happened and she was taken.

We have DCI Kate Riley on the scene and her right hand man, Zain. I liked both of their characters because they had pasts, Zain's is pretty messed up, but I'm not saying what happened to him. They are working hard to find out who has Ruby and trying to track the videos that keep getting posted of her... somewhere... out there!

There is Dan, he was her boyfriend in a sense. I can't talk much about that without giving a spoiler. Lets just say he was a fellow vlogger, he talked about video games and got tons of money as well.

Things turned ugly when Ruby, Dan and many others were conned into joining with a company named MINDNET. They ultimately were supposed to do all of your video editing and what not, good stuff, helping you out to get more people to follow you and give you money. Welllllllll..... then they tell you what you can put out there, what you can't, basically you don't have a mind of your own any more. Ruby didn't like this... Ruby found things out.. Ruby disappeared.

There are a lot of different characters in the book and I didn't really care for most of them. They were just good and bad people all around. I liked the book well enough, I just didn't love it. The beginning was awesome and then it was okay from then on out, well until the end when we find out what is going on. This is a crime book that goes all the way to the Congo. The only advice I can give on the book is if your one of the popular vloggers be careful!

Christine

Sometimes I hear about a book, with everyone singing its praises and I want to know MORE! This is one of those times. I found "Cut to the Bone" by accident, and was very intrigued. Obviously I am ancient and the whole internet stars thing has totally passed me by. Alex Caan's first novel brings the YouTube vloggers sub culture to a wider audience, in a twisty turny engaging DARK crime read.

The book introduces us to Ruby, a girl who is worshipped by millions. Ruby is a vlogger, who has a massive

Sometimes I hear about a book, with everyone singing its praises and I want to know MORE! This is one of those times. I found "Cut to the Bone" by accident, and was very intrigued. Obviously I am ancient and the whole internet stars thing has totally passed me by. Alex Caan's first novel brings the YouTube vloggers sub culture to a wider audience, in a twisty turny engaging DARK crime read.

The book introduces us to Ruby, a girl who is worshipped by millions. Ruby is a vlogger, who has a massive following on the internet. She's made a name for herself, filming to camera her thoughts and feelings on different subjects. She is out there, successful and sparkling. Ruby goes missing. Where is she? Who would wish her harm? On the case is the mysterious American DI Kate Riley and her new sidekick Zain Harris.

WOW!!!! What is not to love about a book set in a world, that you have never encountered before?! Seriously I am too old (thank goodness!) to look on YouTube for beauty tips or morale boosting advice. I am vaguely aware of it out there. Caan brings this teen phenomena to life and makes it all very accessible. The missing Ruby is more complex, than she first appears and her world is not straight forward. It is full of hidden under-currents and sad manipulation. Ruby is a contradiction; powerful and exploited, a victim of her own success. I was fascinated by her. Caan's storytelling gave her a depth and made me feel compassion towards her.

As for the central characters, Zain and Kate, I really enjoyed getting to know them. Zain Harris was tortured in the line of duty and has PTSD written all over him. I know tortured heroes can be a bit of a cliché. But I loved him. I REALLY LOVED HIM. He is a techy geek, an alluring bad boy and I just wanted to know more. Kate was rather interesting as well; with secrets a-plenty and a hint of chemistry with the alluring Zain! If this is the start of a series (fingers crossed), then we are in for some serious good times ahead.

Blisteringly fabulous dark crime, that is hard to put down. Recommended.

An interesting and mostly well written debut, if in the final evaluation it lacked atmosphere. There was a good mix of characters- I enjoyed the variety of backgrounds from which the team was assembled and I'd like to know more about Kate Riley and Zain Harris in particular. However, i'm not sure the POV changes always worked-there were some characters we saw throughout and then some thrown in for the odd chapter just to fill in some extra info or drama. It could be quite disorientating and a bit

An interesting and mostly well written debut, if in the final evaluation it lacked atmosphere. There was a good mix of characters- I enjoyed the variety of backgrounds from which the team was assembled and I'd like to know more about Kate Riley and Zain Harris in particular. However, i'm not sure the POV changes always worked-there were some characters we saw throughout and then some thrown in for the odd chapter just to fill in some extra info or drama. It could be quite disorientating and a bit of a cheap way to add red herrings. The plot worked for the most part, though there was long section of the investigation thrown in to push the detectives off in another direction and that was resolved (or not really) in a few sentences at the end. I suppose it might form part of the ongoing storyline into the next book but it left me feeling a bit put out and it was more than a little cliched in any case. Will I read more? Maybe. It started off really well and I think the author has potential. We'll see.
