## What people Say:

### Rae

Bllleeeeeeecccchhh. As a librarian, I'm obviously compelled to purchase all library related titles (except the sleazy romance ones - trust me, your librarian does NOT want to fuck you). I fell prey to this with

and it was so bad I'm actually mad about it.

This was complete masturbatory white man in his 30s circle jerk writing. I thought the illustrated easter eggs were fun until I realized they were predominantly movie references. Why not call it

if your point is to show off what you imagine to be your esoteric knowledge of pop culture in what you presume to be an archaic institution?

The appearance of the author in the story makes certain what you will surely suspect by that point, the fact that this story is going nowhere, never had a plot, and is as self serving as an uninvited dick pic.

I repeat, BLLLLLEEEEEEECCCCCHHH.

### Ashley Metzger

More like a 2.5.

This wasn't anything like I expected. It had a lot of potential, but it didn't hit the marks for me.

## Nicolo Yu

This one started slow, and confusing, so I ended up abandoning it midway, until I picked it up again after a couple of months. Only when I started reading it again, that pace picks up on the approach to the ending.

This would have been served better if there was a writer's commentary on the stories as a supplement. It's a book about stories and so it has a few of the popular properties (i.e. Alice and Wonderland, Narnia books, and The Matrix), but I really wanted to understand what the author was

This would have been served better if there was a writer's commentary on the stories as a supplement. It's a book about stories and so it has a few of the popular properties (i.e. Alice and Wonderland, Narnia books, and The Matrix), but I really wanted to understand what the author was trying to say in the first three stories.

The ending was pretty disappointing. It's something Grant Morrison has done in his past work but the author is no Morrison.

The only bright spot here is John Amor's gorgeous art. As a reader, I would definitely want to see his work on more comics.

## Kaley

I just read some of these reviews and discovered I am not alone here! I requested the library I work at purchase this and was so excited when I started reading it. Short stories as graphic novels about rebellious books?! What a fun sounding premise. But that ENDING. Will had me the whole time until he literally abandoned his reader at the end.

Anyway, I get it. This probably wasn't really about the plot, but damn it I love plots!

I wanted to like this badly. I HOWLED when I saw a Douglas Adams reference in here. But I'm just so disappointed with this ending. I'd also like to add that the art is pretty sick.

## **Brent Gladney**

A book I liked that I could have loved, if not for the utterly abysmal, abandoned, deus ex machina ending.
