Gertrude's still stuck in Fairyland and trying to get the fluff back home, but her quest hits a bit of a roadblock when she winds up being crowned Queen! All hail Gertrude, the new Queen of Fairyland. Join Gert as she rules the world she hates, meets a new friend named Duncan Dragon, gets her face smashed in by a beautiful princess, and makes a choice that may very well lead to the last days of Fairyland.

I was really anticipating this volume because we were left on quite the cliffhanger in

. But in retrospect,

was utterly forgettable save for a few comedic bits here and there. Oh, and the art! The art was quite fascinating when it changed its style to fit the world of video games.

But let's start at the beginning:

So damn cool!!!

HA! I loved this random shout-out to

.

### Ivan

3.5 stars.

Sometimes I hate to be right. I said that rest of the series is unlikely to be as good as volume 1 and sadly it turned out to be true.

Volume 2 is in no way bad, I still had laughs and giggles reading it but it's nowhere near hilarious as volume 1 which remains one of my favorite comics.

## Trish

Well ... this was ... a let-down to be honest.

After loving volume one A LOT, what with all the clever puns and twists on the usual Fairyland stuff that turned everyting into a gory bloodbath, I had high hopes for this. Other than a few side-stabs at Game of Thrones however ("Winter is coming!"), this was nowhere near as funny as volume one.

As readers of the first volume know, Gertrude killed Cloudia and therefore is now

Well, actually she would like to be as pictured above but still looks like this

Being queen unfortunately is no fun so Gertrude is still looking for a way home. Basically, these issues are a string of further quests. Sadly, not one of the quests was very original, I really missed the wit too, and the introduction of another kid from our world and TIME-TRAVEL of all things ruined

it for me. Maybe Skottie Young and the others tried making fun of all the wizarding and time-travel stuff in other comics, but the way they did it just didn't make me laugh! :(

The art is as crazy as hoped and has equal amounts of fluff and gore just like in the previous volume but even the panels lacked the detailed fun. \*sighs\*

## Sam Quixote

There's a minor spoiler early on in the review, if you care about that sort of thing. Non-spoiler review? It was a might.

Ok, onto the not very spoilery review!

What up, boppy-tops? Time to revisit Fairyland and see what Queen Gertie's been up to since she took over! Nothing good is the long and short of it, but you probably guessed that already - Gertie's a horrible queen and she's turned Fairyland into a living hell!

And here's the mild spoiler: Skottie Young wrote himself into a corner with th

Ok, onto the not very spoilery review!

What up, boppy-tops? Time to revisit Fairyland and see what Queen Gertie's been up to since she took over! Nothing good is the long and short of it, but you probably guessed that already - Gertie's a horrible queen and she's turned Fairyland into a living hell!

And here's the mild spoiler: Skottie Young wrote himself into a corner with the last book's finale. He realised Gertie as Queen of Fairyland is boring and static and that's not where he wanted to take this series as it's at its best when Gertie and Larry are wandering about causing havoc! So the first chapter is a false start that course-corrects our lovable mess of a protagonist to the right direction.

The chaotic uncertain tone right from the start though pretty much characterises this book. Young seems to be randomly tossing in one story idea after another to see what sticks. Meet Duncan, another poor kid stuck in Fairyland against his will, and Gertie's barmy plan to use his pee to escape! Then Gertie enters the Tower of Battle (which is of course a giant arcade machine) for extended fantasy violence scenes, takes a trip into Larry's hat to find the Catastrophon after losing at cards, and then tries to avert a Mad Max-esque future!

Some of the stuff is amusing like the Duncan issue, and the Mad Max one is kerazy silly, and then there are the less engaging bits like the Tower of Battle and the search for the Catastrophon which is both just Gertie repetitively killing things and getting beat up.

## **Richard Violet**

Yes, dammit. We're still stuck in Fairyland with Gertrude. But now she's in an interesting position after taking Cloudia's place as the queen of Fairyland and all the juicy authority that comes with it. But who would have guessed that being queen would be so boring and tiring? And Gertrude's maniacal search is still on to find secret ways of finally escaping Fairyland.

I enjoyed getting deeper into the world-building of Fairyland this go-round as Gertrude roams the land looking for a way out, and

But who would have guessed that being queen would be so boring and tiring? And Gertrude's maniacal search is still on to find secret ways of finally escaping Fairyland.

I enjoyed getting deeper into the world-building of Fairyland this go-round as Gertrude roams the land looking for a way out, and Scottie Young got a chance to flex his creativity even more. Although the story seemed a little less focused this time, this volume is funnier than the first one. It's become much more wacky and meta and with copious amounts of candy-colored ultra violence for our enjoyment! There's some crazy shit in here, like Gertie's dangerous adventure inside Larry's bottomless Hat of Holding where she's forced to fend off lint zombies. Not to mention the batshit final issue. I love it! Give this series a try if you enjoy creative and witty fantasies like Rat Queens or Saga.
