OKAY HELL YEAH NOW WE'RE TALKING. I've been waiting for some answers ever since the first volume and we're finally getting somewhere now. I'm just mad I have to wait until August for the next volume! I'm also curious to see how much of this will be included in season 2 of the anime (which I'm currently watching)

Finally we get some answers and the whole thing is finally starting to make sense. Also, the flashback chapters have been amazing to read, and I hope we'll see more of those. Can't wait for the next chapter to come out.

April (Aprilius Maximus)

Finally, we get some answers!

What was that last chapter?! I did not see that coming. I am so curious for the next volume.

Once again I was able to read this well before it's in print in the US thanks to

I've been looking forward to this one for awhile as the main reason I picked up the manga in the first place was to finally found out what's in that damn basement. So if you're wondering when that happens and don't already know, it's in this volume. Well partially at least. Those events happen in the last two chapters, and there looks to be a lot more to come in the next volume.

There is definitely a lot more questions answered (although now I have some new questions) than in some of the previous novels. Now that the basement is finally open, I'm pretty eager to see where things go from here.

There wasn't a ton of fast paced action in this one, which always seems to be the parts where Mr. Isayama's art is the weakest. I think once again it's decent, but I look forward to seeing it animated in the future more.
