Sorry I'm so late with this review, folks.

I've been working a lot lately and, well...

Between work, the holidays, and

household chores, I didn't have a whole lot of free time.

Or motivation, quite frankly.

So anysnuuggle, this book.

All of us AR fans have been waiting not so patiently for this thing - AKA AR's first full length novel - for quite some time now.

But before we go any further, let's be real here...

In

Sorry I'm so late with this review, folks.

Reading for the second time because I need me some AR this week :)

â€“Alexa Riley has somehow done it... she has made me change my mind about reading her books, going from the dislike of her smutty books to her now full novel (and another on the way) full of potential and brilliance!

â€“So lets talk about the story... WOAHHH! What a HECK

â€“Alexa Riley has somehow done it... she has made me change my mind about reading her books, going from the dislike of her smutty books to her now full novel (and another on the way) full of potential and brilliance!

âž³So lets talk about the story... WOAHHH! What a HECK of a story this is! Miles Osbourne is the number one definition of Mr. Hot Stalker + Possessive Alpha Male mixed together. The way he controls absolutely anything, and

that had crossed through his path and the path of his one true love, is wonderful to read. The transition between the pov of Miles and Mallory is smooth and very pleasing to read in the beginning of the story. The epilogue is rather confusing and a little scary to say the least because of what Miles is thinking... he wants Mallory that's for sure, but he claims her off the bat when he first sees her at a college event hosted by various organizations from Yale. He spots her when she was attending Yale University and she was only seventeen, and himself being twenty-two. He sees her, and he absolutely desires her; desires her love, her passion, her voice, her presence, her

. When the time finally comes, and he is able to talk to her after keeping her at arms length, and after five years of yearning her and her presence, he goes and talks to her. He is instantly beyond possessive of her, and to me it gave me a sense of the creeps but at the same time, it turned me on hahaha! He is demanding in a positive way that makes you swoon for Miles and his love.

âž³Mallory and Miles (also known as Oz) begin their love story and they are both instantly hooked. Miles was already hooked that first time he saw her five years ago, and his love for her never diminished, never got distracted by anything or anyone else because he savored his love for Mallory;

âž³Their love story evolves through the hard secrets that Miles possesses and keeps from Mallory, breaking them apart but slowly bringing them back together. But no matter how when they fall in love, that love never diminishes- instead, it grows and grows, making them fall in love with each other more and more everyday. That includes the intimacy scenes. They don't f***, they make love. Love in a way that makes you want to crave it, love in a way that makes you cry by just reading it (I will admit, I used a couple of tissues), but most of all- love that will make you want more and more of their story, because that is what Alexa Riley has done. She makes you crave more of her writing. She makes breakfast sex, morning sex, office sex so hot and steamy, I kept heating up every time Miles and Mallory were together!

Lisa

is the first full length novel in Alexa Rileyâ€™s new series entitled For Her. I am a big fan of this author and love her over-the-top, sweet stories with possessive male leads and a big dollop of inst-love. For me, personally, I enjoy books that are over the top when it comes to sunshine, love, happiness, rainbows and unicorn farts. I also enjoy Ms. Rileyâ€™s exaggerated alpha-males who

author and love her over-the-top, sweet stories with possessive male leads and a big dollop of inst-love. For me, personally, I enjoy books that are over the top when it comes to sunshine, love, happiness, rainbows and unicorn farts. I also enjoy Ms. Riley's exaggerated alpha-males who are all about possessing the women they fall for. Every now and again it is nice to read a book with little to no angst and simply take in all the cheesy goodness that is love and a happy forever. That is what this book did for me. It put a smile on my face and had me happily sighing wanting my own hot reclusive billionaire.

Miles Henry Osbourne (a.k.a. Oz) has worked hard to become the sought-after billionaire everyone knows him to be. He goes after what he wants and makes no apologies for it. He's wanted Mallory Sullivan ever since he first laid eyes on her when she was only seventeen. He knows that he can immediately possess her so Miles sets out to ensure that Mallory will be his eventually. He intricately insinuates himself into Mallory's life without her knowledge buying his time so that one day he can finally get his prize.

Told in dual POVs, I loved reading how Miles finally was able to stake his claim. Was this over-the-top and borderline stalkerish? Sure. However, I also understand this is fiction and the crazy ride that Miles and Mallory embark on is simply fun to read. If you have read anything by Alexa Riley in the past, you will know the types of exaggerated heroes she conjures up. Her heroes are larger than life, possessive bastards and I love it.

All in all,

was a lot of fun to read. I found myself often stopping while I was reading this book to simply take in how much I was loving every word. I love books that make me feel this way. I feel like this author stands out and has developed a unique writing style that is enthralling. Full of wonderfully written secondary characters, a hero in hot pursuit, a heroine who does not see him coming and moments that will simply melt you – this book had it all. I can't wait for more in this series.

Eve Recinella (Between The Bookends)

This one was just good for me...not great. Maybe my expectations were too high or something. I found that it dragged a lot and I was bored.

I think the authors could have cut down on the time it took Mall finding out the big secret and spent more time with Paige and Mile's groveling. I hate a heroine that gives in literally hours after

There just wasn't nearly enough grovel in my opinion.

There just wasn't nearly enough grovel in my opinion. The beginning was super slow, the middle part picked up, but then we went back to the super slow that dragged on and on. I also didn't find Mile's particularly alpha like a typical AR hero. In fact, I found him and Mallory a little on the bland side. AND, because I feel in a particularly picky mood today, I will say I also didn't like that

Ya, Ya, picky much Eve? What can I say? I

I was just underwhelmed. That said, I think Paige's and Ryan's book sounds WAY more interesting and Ryan sounds like he has the potential of being WAY more alpha. So I AM looking forward to that one...
