I am sorry. I have really tried with this book, having read and enjoyed Erica Spindler in the past. but I honestly just can't connect with this book, no matter how I try. I enjoy supernatural tales, I enjoy police procedurals, I enjoy suspense and thrillers. So I really don't know why this book did not work for me

TRIPLE SIX starts off 3 months after THE FINAL SEVEN. These books need to be read in order.

Three months ago Detectives Micki Dare and Zach Harris were teamed together. Zach is a rookie.. part of an experimental FBI plan. Zach has certain ... abilities.

Micki is still recovering from the night she almost died. She's still having nightmares and she feels that she should remember ... something.. or someone who was there that night. She's sure that Zach is keeping something from her .. but why?

Micki is still recovering from the night she almost died. She's still having nightmares and she feels that she should remember ... something.. or someone who was there that night. She's sure that Zach is keeping something from her .. but why?

In the meantime, a series of home invasions is keeping them both busy. The families targeted have small children. No one is hurt and nothing is taken. So what is this gang of 5 looking for?

The more Micki and Zach search for answers, they come to realize these are no ordinary crimes...something much, much darker is at work.

Personally, I think book 2 is much better than the first. The characters' personal lives have expanded, answering a lot of questions ....and yet creating more. Micki (Mad Dog) is a by-the-book cop, trying to cope with Zach's special abilities. I love how they play off each other.

I have enjoyed reading Erica Spindler's novels for some time now but if I am completely honest I didn't really connect with the 1st book in this series. I put it down to the different genre of this series which is classed as a 'Supernatural thriller'. With my previous experiences of reading this author I was happy to give the series another chance with the 2nd novel 'Triple Six' and I am so glad I did. With my previous experiences of reading this author I was happy to give the series another chance with the 2nd novel 'Triple Six' and I am so glad I did. I found this book a lot more enjoyable, the characters were more interesting and I felt the plot was better paced.

This 2nd novel features detectives Micki Dare and Zach Harris, it is now three months since Micki almost died, she is still having nightmares and has a feeling that more happened that night than Zach is telling her. Their latest case is a string of brutal home invasions in New Orleans and the families targeted seemingly have nothing in common. There are lots of twists and turns as the case hits too close to home.

I would like to thank Net Galley for supplying a copy of this novel in exchange for a honest review.

Ms. Spindler is back doing what she does best - writing suspense! This is the second book in The Lightkeepers series. In all fairness, I have not read the first one yet, so I went into this a little confused but was able to grasp what was going down quickly. This is a wonderful supernatural thriller with a little romance in the background. I would recommend starting with the first one to fully enjoy them.

Wow, what a great read! This series just keeps getting better. I have to admit I don't know what happens if a half light hooks up with a dark light or if a full light hooks up with half dark, that's just too much to remember. However, what I do know is that this series is so different from anything else that I've read.

It is so entertaining and I find myself really getting into it. I can't tell you how many times I screamed at Angel "are you an idiot or what?" or "no, don't do that". That just te

It is so entertaining and I find myself really getting into it. I can't tell you how many times I screamed at Angel "are you an idiot or what?" or "no, don't do that". That just tells me that I am so emotionally involved that these characters are real for me and obviously they need my help. And obviously, they are not listening to me. Duh!

Then I finish the book and realize this was Erica Spindler, she doesn't write paranormal stuff - wow, this is blowing me away. Not just the story, the characters, the subplots, the twists, it's the fact it's not a romance novel. She's moved on to another genre and I have to say, she's hitting out of the park. I'm not sure how many books are in this series, but I'm here and I'm to stay. I say keep hammering them out and I'll keep reading and reviewing them.

Great series, entertaining, enjoyable and always leaves with an ending that makes think, ummmm?

I received this galley from the author in exchange for an honest review.
