She'd swear off men, but she and her friends know there's an itch that needs scratching. This time, she'll be in charge.

Then she meets Luke McCall, who not only passes her tests but aces it like a pro.

He knows the enemy is doing shady business to steal his projects, so he'll stoop to his level and seduce the enemy's daughter to get dirt. He just doesn't expect to like Grace so much and see how different she is from her father.

Their chemistry is off the charts! They both come into the relationship with every intention of breaking it off eventually, but instead they learn to like each other and realize how well they mesh together.

Grace is an enigma. She came off as this typical rich privileged girl, but she turned out to be so much more. She's kind, humble, and caring. A bit naive at times, but she thinks well of others.

I admire Luke for his dedication to be where he is now, but I didn't like how he still went on with his plan to manipulate Grace even though he knew she was innocent and had nothing to do with her father's shady business. He had a few chances to tell her the truth, but chose to let it blow over on its own. The only consolation that made me not hate him is that he genuinely started to care for Grace and wanted to find a way that she won't get screwed over along with her father.

I also think he got off easier than I would have liked.

When he suspects someone is using nefarious schemes to stop him winning contracts he decides to try to woo the man's daughter, Grace Wilson, to lie to her and romance her with the sole aim of discovering a way to put her father out of business.

Grace is fed up of men trying to use her and is looking for someone who loves her as she is, not for her social position, money or the connection to her father. She decides on some tests to use to filter out such potential boyfriends. However, after meeting Luke she's not so sure as he passes every test with flying colours - can she trust him?

I really didn't like manipulative, lying Luke . . . his childhood is no excuse for his attitude or behaviour or how he plans to use Grace! Grace may be very rich but she is much too naive at times, especially concerning both her father and Luke. However, there are some very funny episodes where the two are so near to consummating their relationship but Luke keeps having some reason to abandon her, even when they're both naked! He's actually trying to resist his attraction to her as even he sees that as overstepping moral boundaries considering why he's with her in the first place. That's actually what gives him a glimmer of potential IMHO, but what will happen when she discovers his true intent? Will he succeed in putting her father out of business? If so, how will Grace react? As their mutual attraction grows, will Luke actually be able to continue towards his original goals or will love step in to thwart him?

Many thanks to the publishers for gifting me, without obligations, an ARC of this novel via NetGalley.

Took me forever to read a 127 page novel - I think that says a lot about the novel.

Grace Wilson is the daughter of ruthless property magnate Cyrus Whitaker. She acts as his business adviser and is his antithesis in every way. She is jaded after yet another man sees her as a tool to achieving his objective - the last one wanted her father to sponsor him to an exclusive Manhattan club. Now Grace has hatched a plan to thoroughly test any man who expresses an interest before she sleeps with him, then dumps him.

Luke McCall has dragged himself up from his bootstraps from an abusive childhood. He and Cyrus have been at loggerheads over various property deals. When Cyrus cuts Luke out of the Hudson River Building development by spreading false rumours about shoddy workmanship, Luke is determined to expose Cyrus for the corrupt businessman he really is. And what better way than through his airhead, socialite daughter Grace, who's probably in cahoots with her old man anyway? So Luke sets out to woo Grace and be the very best boyfriend he can be so that he can ferret out proof of Cyrus' dirty dealings.

This was OK. I've read a whole slew of this type of book and this didn't stand out as being anything new or different. Luke ignored or dismissed all evidence that Grace was not like her father basing his opinions on nothing more than his own biased views. Grace seemed to personify so many different stock personalities that I thought she might get schizophrenia (innocent ingenue, patsy daughter, girl with a dating plan, girl who's never had an orgasm, girl who's been used by the men in her life...). Luke came from an abusive home, he has an estranged brother, he's a ruthless property developer who's never been to the opera ...

I was surprised to see that I had read the previous book, about Luke's brother Rafe, slightly less surprised to realise I couldn't remember it at all, even after I re-read my own review. I expect that the same will be true of this book too.

I received a free copy of this book from the publisher via NetGalley in return for an honest review.

Grace Wilson has been used by men for her wealth and connections and she's tired of it. She's decided it's her turn. She's going to be the one using men. The plot was good, although there were some issues left unresolved at the end. I thought the ending of the book was too abrupt. I did like Grace and Luke together. Grace was a bit of a pushover with her Father until the end when she finally stood up to him. I would give this book 3 1/2 stars. My reasons are mainly because of the ending. Thank you to net galley for an advanced readers copy of this book.

Once the truth comes forth can love win? This was a really nice story and I like the way Luke dealt with everything when things came out.
