What people Say:

Julia Ember

This little book is pure comedic, cathartic gold. We got sample pages sent to my workplace today ... this is a must-have for all of us nursing the 2016 hangover.

You all need this.

Antonomasia

Maybe it's all a bit obvious, but this is one of the very few times I've enjoyed a blurb seen in the new style newsfeed (oh yes, that was another rubbish thing introduced in 2016).

Kirsty Frearson

A copy of this really needs putting into a time capsule!

Adam Stevenson

Fascinating that this book exists at all - I know other end of the year review books but none dedicated to castigating the year in question. 2016 has been interesting, no doubt.

More interesting, what will this book look like in 10 years, in 50 - in 100? It's essentially a cheap Grub Street smash and grab of jokes, memes and events of the year but the obvious real anger that bubbles behind it may make this a really interesting book for any future historian - if just for the irreverent mood.
