Update: The ending! This manhwa is just incredibly plotted, I can predict only two endings to this thing here and both are hideous! There is no way in hell this is going to end well, so don't expect any happy endings for now.

Rape, abusive relationship, stockholm syndrome.

I loved the emotions roller coaster, also the art is beyond amazing. I don't read Manga that much because I tend to lose focus on the story and care about the art and the little details more, but Mangas on phone is a great way to concentrate on the story instead.

I was just innocently checking the Manhwa out and suddenly I'm finishing it and waiting for chapter 18, like what happened? I don't know.

I'm totally ruined, my innocent anime mood is ruined I need to rewatch Yuri On Ice!!! or Haikyuu!! or something, this will get me my innocence back.

The similarities between the characters and some anime icons is uncanny, Bum is L but softer and gayer, Sangwoo is Hisoka Morow but crazier!

However, it was fucked up and scary, and I think the artist was trying so hard to show that, and that it's not okay to ship an abusive relationship, however, some actually do ship them, I personally ship them both with a therapist.

Let me start off by saying that it is important to consider the title before reading. I, like many other people I'm sure, was reluctant to start reading this manhwa after the negative attention it had received. However, the hate it receives is completely unfounded. This manhwa features heavy violence, gore, and immensely flawed (but well written) characters. Although the comic has an abusive gay relationship, it is never romanticized or seen as healthy within the perspective of the manga. The go

Let me start off by saying that it is important to consider the title before reading. I, like many other people I'm sure, was reluctant to start reading this manhwa after the negative attention it had received. However, the hate it receives is completely unfounded. This manhwa features heavy violence, gore, and immensely flawed (but well written) characters. Although the comic has an abusive gay relationship, it is never romanticized or seen as healthy within the perspective of the manga. The goal of the manga is to scare and entertain the reader, the purpose is not to create a healthy couple for readers to ship. Overall, the problem lies within the fanbase that is willing to fetishize any gay relationship, no matter the circumstances.

Anyway, for a psychological horror, this is one of the best I have seen in a very long time. I rarely, if ever, feel anxious for a character but I feel so much for Yoonbum. I relate to his character a lot and it breaks my heart to see him suffering so badly from everything Sangwoo puts him through. Furthermore, as someone with BPD, I think the way in which Bum is portrayed to have it is accurate as I know some people were complaining about that as well.

In my opinion, the best thing about Killing Stalking is the suspense. The end of each chapter leaves me SHOOK. The pacing is so good and there aren't any cheap jump scares. I also find the plot in itself to be engaging. There were a few twists I didn't see coming. Another thing that I love is the art style. It really is beautiful and the artists pay so much attention to detail.

I can understand why some people would have issues with this manhwa and it definitely isn't for everyone, but if you are a fan of horror/psychological thrillers, then I would definitely recommend Killing Stalking.

Así que el dilema es real, y he tomado una decisión, no terminaré de calificar esto hasta que los demás tomos salgan y me de cuenta de si realmente la historia se dirige hacia donde yo espero, si se trata de una historia más sobre el famoso síndrome de estocolmo o de una innovadora obra. Porque así, a pesar de que mis internos comentarios feministas no paraban de resonar en mi interior, y de decirme que uno de los personajes principales era un misógino-falo-represor a parte de estar muy

loco”,

la historia es buena, y no la puedo juzgar por sus personajes, o por lo que hacen, se supone que lo deberÃ- a hacer por lo que me hacen sentir, y

, me estaba muriendo de miedo.

, esta es una clase de terror psicolÃ³gico que no habÃ- a explorado en mucho, mucho tiempo.

This was a very disturbing read, and I would not recommend it to anyone who is squeamish.

This online manga follows the main character in a Stockholm Syndrome scenario. It was very disturbing and I can't keep my dinner down anymore... But I honestly couldn't stop reading it. My heart breaks for the main character and what he has to go through. I'm sobbing internally, please who ever is in charge of the universe make it stop.
