## What people Say:

### Heather

There are two kinds of books, those that you finish reading and leave you with fleeting memories of the attractive hero, the silly heroine, and the overall storyline, or perhaps all you noted was the glaring plot holes, inconsistencies, ridiculousness or flat characters. At any rate, it's a book that you read, either like or dislike, but no sooner than you have turned the last page, it is out of sight and out of mind. Then there is the other kind of book that will touch your heart, or awaken a l

There are two kinds of books, those that you finish reading and leave you with fleeting memories of the attractive hero, the silly heroine, and the overall storyline, or perhaps all you noted was the glaring plot holes, inconsistencies, ridiculousness or flat characters. At any rate, it's a book that you read, either like or dislike, but no sooner than you have turned the last page, it is out of sight and out of mind. Then there is the other kind of book that will touch your heart, or awaken a lingering memory or a potential fear that will haunt your mind so that even long after you've fallen asleep, your unconscious self is still wading through the details. Your dreams will be fitful and when you finally awaken, you will find yourself tangled up in sheets with puffy, swollen eyes from tears that you shed when you weren't even aware enough to know you were crying. If I Stay is the latter.

Mia is eighteen and has the kind of family any of us would pray to be born to and the kind of boyfriend that can only exist in the fictitious world. Furthermore, she is a gifted musician and is about to be accepted into the prestigious Julliard. Mia has a choice, she can follow her love of music, go to Julliard and accomplish her cellist dreams, or she can stay with her family and the love of her life and follow her heart. Either way, she has something to gain and something to lose. Then, one fateful morning, Mia's world is turned on its head and life as she knows it changes. The one thing that remains the same is the question that Mia has asked herself for the past few months, should I go or should I stay?

In art, the brightest colors appear beside the darkest of lines and in this book, the most endearing, tender and happy moments are surrounded by grief so palpable, that you will laugh through your tears and sob with a smile. If I Stay demonstrates the kind of beauty that can only exist alongside despair and shines all the more for it. It is filled with happiness and sorrow, laughter and tears, birth and death, love and loss. By writing a book filled with parallels, Forman proves that life has no opposite and thus leaves readers with an overwhelming sense of joy and hope despite tears and grief that they are bound to feel.

**\*\*Update\*\*** I just re-read this book for the forth time and it continues to devastate and delight me.

## Emory Russo

My impression? It was good. Not fantastic, but okay. Decent. Tolerable. But I'm a bit irritated with this book right now, because it is one of those books that has been ridiculously overrated. Yeah, it was sad. But not 'devastating'. Not 'heart-wrenching'. This book was fine, but I honestly think that if I had read the first chapter and then read the last chapter I wouldn't have missed much. Yes, her parents were both beautiful people who will be missed. And I have to admit the whole story of he

Yeah, it was sad. But not 'devastating'. Not 'heart-wrenching'. This book was fine, but I honestly think that if I had read the first chapter and then read the last chapter I wouldn't have missed much. Yes, her parents were both beautiful people who will be missed. And I have to admit the whole story of he brother's life and death tugged at my heartstrings. But at the end of the book, I found myself feeling more bored than anything. This book wasn't new, or original, or groundbreaking. It was a way for me to kill time while I waited for my Mom to pick me up from school. I've seen stuff like this novel a million times before, and most of them were a lot more sad. Sorry Forman, but I'm not impressed.

Guys, I wrote this review in 2010. Do you seriously feel the need to continue commenting on this, when I've been messaged by die-hard fans and fellow haters alike, had to answer every possible argument for or against it, and been criticized for ~daring~ to write a less-than-glowing review on a website whose

is to review, critique, gush about, and condemn books? Are you honestly that rilled up by a negative opinion?

If I Stay just isn't that great. My tastes have changed quite a bit since I read it, and I stand by my opinion. Why do you care? Why are you still whining about it when a simple read-through of the comments will show that I've already addressed your specific complaint? Go away. Write your own glowing review. Watch the movie version coming up (which also looks terrible, but what do I know). Go. Leave. I don't care. I do not care.

## Jess

This book could have been great, but it was almost embarrassing to read at times. I know that sounds pretty mean, but c'mon.

I can appreciate any novel that mentions Kathleen Hannah and Courtney Love in positive context (it also earns points for being set near Portland!), but I can't respect a novel that is full of cliches, unrealistic characters, and CHEESE. I almost had to stop reading when one character "played the other character's body like a guitar", and I actually did stop reading for awhile

This book could have been great, but it was almost embarrassing to read at times. I know that sounds pretty mean, but c'mon.

I can appreciate any novel that mentions Kathleen Hannah and Courtney Love in positive context (it also earns points for being set near Portland!), but I can't respect a novel that is full of cliches, unrealistic characters, and CHEESE. I almost had to stop reading when one character "played the other character's body like a guitar", and I actually did stop reading for awhile when the girl brought out her damn cello bow and started running it along her boyfriend's body. Seriously? Would this ever really happen? I know this is fantasy, but the author doesn't write it like it is supposed to be a dream.

The parents were the worst part of the book for me. They were the parents absolutely every teenager in the Western world wishes that they had- cool, young, know music, laidback, had wild young adulthoods, act like teenagers, and are just so damn awesome it hurts. There really is no happy medium in teen fiction- parents are either antagonists or sidekicks these days.

The premise was a great one- being able to choose between life or death. And it could've been awesome. But this book was sadly not awesome, it was poorly written and cheesy.

**Lola Reviewer**

I'm not.

I'm not

Why would I be?

is only one of the most endearing stories I've ever read...

No reason to sob quietly while writing a review... áf!

â•œ â•œ â•œ

You probably all know what happens. A car accident. A car accident that took Mia, her brother and her parents' lives away. Only... Mia stayed as a ghost, a lifeless body. She's hurt. She's weak. She doesn't want to leave everyone she cares

I played the violin for five years and the viola for three. It is the piano that only lasted for one year. My older brother and I began our lessons together when I was nine.

My brother was a smart kid, but he didn't know it then. It didn't help that his little sister was extremely competitive, precocious and bratty. I think he always believed he didn't have much going for him - but boy he has it where it counts.

Back then I thought I was so much smarter than him, and taking up the piano was another

I played the violin for five years and the viola for three. It is the piano that only lasted for one year. My older brother and I began our lessons together when I was nine.

My brother was a smart kid, but he didn't know it then. It didn't help that his little sister was extremely competitive, precocious and bratty. I think he always believed he didn't have much going for him - but boy he has it where it counts.

Back then I thought I was so much smarter than him, and taking up the piano was another chance for me to prove that. Unlike my brother, who had never played an instrument before, I could sight-play and was already studied in the necessary music theory aspects from the violin.

And, in form, I

better than him. For a while. Effectively speaking, I always was always going to be better at him in the technical arena. But he was better where it counted. When it came to the heart of the music, bringing a piece alive and making it beautiful - I was completely outclassed. I played like a robot and he played with his soul.

This book makes me regret that more now than I've ever regretted it before in my life.

If I Stay is a beautifully written, character-driven novel about a girl choosing between life and death. It was also one of the best narrated audiobooks I have ever listened to.
