What people Say:

Sasha Alsberg

I AM DONE! WOW. Just wow. That ending. woah. Within 40 pages I ugly cried, my heart exploded in feels, confusion happened, hope, and now I'm mind blown by the ending. WOW. Diana, you've done it again! Took me awhile to get into DiA but once i got past the 300 page mark it got so good and kept on getting better. 5/5 stars!

Kate

Gabalton's sex-ridden, hugely researched, academically adventurous, time travel/sci-fi meets historical romance novels qualify as trash novels for lit nerds -- they're absolutely a guilty pleasure. From clan warfare to herbal medicine to genealogy to British history to WWII, the books are packed with information (what little Gaelic I know started with these books). Bonus: the heroine gets to have many, many rolls in the hay with a handsome hard-bodied Highlander. Can't really go wrong.

The books

Gabalton's sex-ridden, hugely researched, academically adventurous, time travel/sci-fi meets historical romance novels qualify as trash novels for lit nerds -- they're absolutely a guilty pleasure. From clan warfare to herbal medicine to genealogy to British history to WWII, the books are packed

with information (what little Gaelic I know started with these books). Bonus: the heroine gets to have many, many rolls in the hay with a handsome hard-bodied Highlander. Can't really go wrong.

The books were recommended to me while I was living in England, and a lucky thing, too, because had I taken one look at the Fabio-in-a-kilt-of-passion American paperback cover I would have refused to read it (note: the British version was called Cross Stitch and the cover had a less-than-sexy field of heather on it). For a while I was caught up on the series, but I lost interest once the Frasers headed to America.

They are long books but the pages turn quickly. Gabaldon has a way with characters and her prose flows along at an engaging clip. Oh, but if you get all squeamish about buggery, don't bother -- the negative reviews of these books always focus prudishly (and tediously) on one specific encounter in an otherwise pretty rampantly heterosexual landscape.

This book broke my heart. I knew what was going to happen because I watched Season Two before reading the book but it doesn't matter.

I have been crying forever now, like my heart is going to break into a million pieces!

It was worried

This book broke my heart. I knew what was going to happen because I watched Season Two before reading the book but it doesn't matter.

I have been crying forever now, like my heart is going to break into a million pieces!

It was worried when the book/show starts 20 years later. Jamie and Claire's daughter is grown and Claire named her Brianna. *Sob* because Jamie asked her to name the baby Brian if it was a boy before she left him to come back. I don't know if I can get through this, damn it.

20 years later, Claire brings her daughter, Brianna back to Scotland after Frank's death. Brianna has no idea, of course, who her father really is but she finds out. They are staying in Scotland and visiting all of the old sites and Claire took her to see a man named Roger. Claire knew Roger when he was a little boy. Claire actually knew his father, adoptive father, but he had passed away. He did keep extensive records. < --- it all leads back to things.

Claire goes back to some of the old haunts while Roger takes Brianna around. It breaks my freaking heart. Everything breaks my freaking heart.

I'm so worried about the next book being more heartbreak. It's been 20 years after all. Jamie has been with other women and I think has a child, but they weren't like I was thinking. Yes, I asked ahead. He has never forgotten Claire but I hope they can get their love back. Anyway, on with this review.

At one point Claire finally admits everything to Brianna and Roger. Roger had already found some papers confirming things that Claire was saying but he was keeping them a secret because he didn't know what to make of it. Brianna freaks clean out as you can imagine.

April (Aprilius Maximus)

4.5 STARS I've never cried so hard in my life over fictional characters before

Stephanie

This review will be a little spoily, read it at your own risk

â€œOk, so I set the date on 2012â€¦.and set it for Kansas City Kansasâ€¦..Kemperâ€™s deck. I think all I have to do is reverse the directions on Google maps on the laptop. Uhâ€¦..turn the key. Yay, it works.â€•

â€œOr I thought so, Toto I donâ€™t think weâ€™re in Kansas anymore (had to do it!).â€•

â€œHello Stephanie. Totoâ€¦!â€¦I love the Wizard of Oz.â€•

â€œAaaaack! Claire Beachum Randel Fraser! You just scared the piss out of me. Donâ€™t sneak up on a person sitting
