I knew a little about Iran. Not much, but a little. I knew it had been through a lot of changes, and that most of those changes had been steps backward when it came to personal freedom.

Alright. What I didn't know was the hows and whys. And to be honest, it never occurred to me to delve much deeper.

to wear burkas, so I just assumed most of the people in Iran thought it was a good thing.

Now, maybe my original views sound sort of stupid, but in my defense, I honestly don't understand why anyone does

when it comes to religion. So covering yourself head to toe doesn't sounds any weirder than not using birth control, avoiding certain foods, or refusing medical treatment. And don't get me started on that My Husband is the Head of the House shit...

My point is, if people willing do

things because of religious beliefs, why not clothing stuff?

is Marjane Satrapi's memoir of growing up in Iran during the Islamic Revolution. It was an eye-opening, heartbreaking and thought provoking book" I had many thoughts and feelings while reading, so much so that I had to put it down multiple times to take a breather.

I was in a haze for a very long time after finishing it" and I kept questioning everything in my surroundings.

Here are some instances that made me put down the book and think for a while (they contain):

I loved Marjane so much and her amazing parents.

It take place from

, where the young girl witnessed all the depressive rules of the new "Islamic Government"

The good thing is the richness of her family both in money and culture...even their ancestors.

That makes a very helpful great insight into the history of Iran, and the major political turns. Most of these things I didn't know - or even if I read it once in text books I may never remember it as I will after reading this novel-

I loved her wanna be a prophet.. it's of course unspeakable in my religion but it comes in a childish nice way...that's okay since she wanted the good deeds as Zarathustra.

This first part is divided into 9,10 pages chapters, each with a title that may makes small appearance or bigger one but it has strong effect in the story. It's brilliant really I loved the naming of the chapters so much.

There was a good

and how the new government effects them, but I felt that adding a Jewish family into the story was just "inserted" for the purpose of showing diversity and how everyone been effected by the horrors of the war.. it really could have been presented better to not feel that "alien".

. I mean, there's no sex, no drugs, no foul language – it's simply a memoir of a girl who lived through the Islamic Revolution in Iran. Generally when the whackjobs take a break from their cultlike book burnings they are

sharing anything that points out how horrible the Middle East is. I guess at some point they just decided to go all Oprah with respect to book bans
