I didn't like this book.

This is not what I expected to be. I hoped to find a book in the style of

(or something novel) and what did I find? A bunch of teens who try to ease their anxieties in their not-so-original vices and a sudden drama which leads to nonsense talking. All hiding, of course, in a couple of beautiful quotes that wrap all the 'inspiring-sites' on the internet, the reason I got to the book and I bet that you too.

Boring, it was so

My assistant Amanda has been a John Green fan for ages, which is one of the reasons I decided to start giving his stuff a read.

I decided to start here because it was one of his first books.

After I finished this book, I went to her and asked, "Are all of John Green's books going to leave me feeling like I've had a hole kicked straight through my guts?"

"Not all of them," she said. "But yeah. Some."

I thought about this for a while, then asked her. "In Name of the Wind, when X happens, did it fee

, and in an adrenaline-fueled all-caps teen reviewing frenzy, will inadvertently give a major spoiler for this book.

avoid these people, even though ordinarily, they are pretty cool.

this is a really well-written teen fiction book. i mean, it won the printz award, i'm not discovering america here. i think i wanted to emphasize that it definitely reads like a book intended for a teen audience. and i think that me as a teen would have numbered this among my very favorite book

this is a really well-written teen fiction book. i mean, it won the printz award, i'm not discovering america here. i think i wanted to emphasize that it definitely reads like a book intended for a teen audience. and i think that me as a teen would have numbered this among my very favorite books. however, as an adult, there are a lot of years between me and the characters in this book, and i have read a lot more books than the average teen, so i am mostly jaded and ruined, but imagine me discovering this at say, 13...

1) a group of smart kids going to boarding school who read all the time and take pleasure in learning and have hundreds of books and quote marquez and rabelais. karen would have loved to have had

friends like these

2) emotionally unstable female lead who is mysterious and changeable who is not afraid of her sexuality but doesn't use it all the time to get what she wants who says tough and dramatic things like "y'all smoke to enjoy it. i smoke to die" (thirteen year old karen loves this line, grown up karen rolls her eyes)

3) drinking and smoking and fornicating that do not lead to bad grades and ruined lives. there are other causes for those things...

4) blow job tips. 'nuff said

I did not cry.

But, John Green still managed to hit me where it really hurt.

That's me, realizing I was about to give a big one star to a super popular book on Goodreads.

It didn't stop me. This book was beyond stupid.

Miles is a little nerd boy from Florida, he is going away to boarding school hoping for a new life or maybe his "Great Perhaps". The Great Perhaps comes from a minute reference to some poet. Thrown in to this book to make it all edgy and shit. Fail.

Once he gets there his roommate (the requisite character that is so poor but super smart) befriends him. The

Once he gets there his roommate (the requisite character that is so poor but super smart) befriends him. The Colonel aka Chip takes Miles (now known as Pudge) under his wing and now he has friends!

Including the super special Alaska, she is the beautiful, cool and allusive girl. She is moody and spontaneous. Of course, the boys all love her milkshake..including our Pudge.

That smoking line? It's from the book. *head-desk*
